## Tool Search: Digital Upload PreK Report

The Preschool Immunization Digital Upload is used to report student immunization compliance for each vaccine dose.

CO Digital Upload PreK Report ☆

**CO Digital Upload PreK Report**

The CDPHE Immunization Digital Upload for Preschool(s) is submitted yearly to the state beginning October 1, due January 15.

To ensure the accuracy of reporting for Preschool students, this report relies on the following District, County, and School Information:

- \*Within System Admin > Resources > School, Preschools must have their State School Number, City ID, and CDHS Code entered.
- \*Within System Admin > Resources > District Counties Review your District County(s) as it is required that Preschools submit an individual report by the County in which it resides.

*CO Digital Upload Pre-K Report*

## Report Logic

The report aggregates a count of days between the student's birth date and immunization dose dates per vaccine.

The report can be run against a district's active year as well as any prior year.

Prior to running report:

- The **City ID** field located on the [School Information](#) editor must be populated.
- Users need to validate that the [County and County number](#) is accurate according to the State. The [District Counties](#) in which the School(s) reside must also be populated.

## Report Editor

Field	Description
<b>County</b>	The county in which the school resides.
<b>Effective Date</b>	<p>The date the report will run.</p> <p>The field is auto-populated with the current date, but can be changed by using the calendar icon to select a date or entering a new date in <i>mmddyy</i> format.</p>
<b>Format</b>	Selection determines whether the extract generates in the State Upload, CSV, or HTML format.
<b>Calendar Selection</b>	At least one calendar needs to be selected in order to generate the report. Calendars can be selected by the active year, by school name or by year.
<b>Report Generation</b>	The report can be generated immediately using the <b>Generate Report</b> button. Or, use the <b>Submit to Batch</b> button to select when the report is generated. See the <a href="#">Batch Queue</a> article for more information on this functionality.

## Generate the PreK Digital Upload Report

1. Select the **County** from the dropdown.
2. Enter the desired **Effective Date**.
3. Select the **Format** of the report.
4. Select the **Calendar(s)** from which to report information.
5. Click the **Generate Extract** button or use the **Submit to Batch** button. The report displays in the desired format.
