The 21st Century Report returns all students who have a [21st Century Program](#) record during the entered Start and End Dates on the extract editor. The 21st Century Community Learning Center program (a Title IV, part B program) awards competitive grants for expanded academic enrichment opportunities for children attending high poverty school.

The screenshot shows the 'i4see Extracts' tool interface. At the top, there's a search bar and the Infinite Campus logo. The main heading is 'i4see Extracts' with a star icon. Below it, a breadcrumb trail shows 'Reporting > NH State Reporting > i4see Extracts'. A blue banner contains the text: 'This tool will extract data to complete several formats of the New Hampshire State-defined i4see reporting extracts. Choose the State Format (CSV) to get the file in the state defined format, otherwise choose HTML for testing/debugging. Note: Prior to submission, you must remove the header row, if one exists, and save the file as a "comma separated file".'

The interface is divided into two main sections: 'Extract Options' and 'Select Calendars'. In 'Extract Options', the 'Extract Type' is set to '21st Century Report'. There are fields for 'Start Date' and 'End Date'. The 'Ad Hoc Filter' is set to an empty dropdown. The 'Report Format' is set to 'State Format (CSV)'. There are buttons for 'Generate Report' and 'Submit to Batch'. In the 'Select Calendars' section, the question is 'Which calendar(s) would you like to include in the report?'. The 'active year' radio button is selected. Below this, a list of schools is shown for the '20-21' school year: 20-21 Abbott Elementary, 20-21 Bryant Elementary, 20-21 Chowen Middle, 20-21 Drew Middle, 20-21 Ewing High, and 20-21 Fremont High. A note at the bottom of the list says 'CTRL-click or SHIFT-click to select multiple'.

At the bottom of the interface, there's a 'Refresh' button, a 'Show top' dropdown set to '50', and a date range filter for 'tasks submitted between 07/16/2021 and 07/23/2021'. Below this is a 'Batch Queue List' table with columns: 'Queued Time', 'Report Title', 'Status', and 'Download'.

## Report Logic

Students who have a 21st Century Program Record as of the entered Start and End Dates on the report editor are included, and can be generated for the active year or a prior year.

Students are not included when:

- The Enrollment record is marked as State Exclude or No Show.
- The Grade Level of Enrollment is marked as State Exclude.
- The Calendar of Enrollment is marked as State Exclude.

## Report Editor

Data Element	Description
<b>Extract Type</b>	Indicates the type of extract selected. Different options may appear depending on the selection. For this instance, choose <b>21st Century Report</b> .
<b>Start Date</b>	Beginning date of the 21st Century Program records. Dates are entered in <i>mmddyy</i> format or can be selected by using the calendar icon.
<b>End Date</b>	End date of the 21st Century Program records. Dates are entered in <i>mmddyy</i> format or can be selected by using the calendar icon.
<b>Ad hoc Filter</b>	Selection of previously made filter that contains specific students to include in the label request.
<b>Report Format</b>	Determines how the request is generated - in the State Format (CSV) or HTML. Use the HTML format when reviewing data. Use the State Format when submitting the list to the state.
<b>Select Calendars</b>	At least one calendar must be selected in order for the extract to generate. Students in the chosen calendars are included in the extract.  Calendars can be selected by the active year, the school or the year.
<b>Report Generation</b>	Use the <b>Generate Report</b> to immediately display the results. For larger selections of data (multiple calendars, multiple years), use the <b>Submit to Batch</b> option to choose when the report generates.

## Generate the 21st Century Report

1. Select the **21st Century Report** options from the **Extract Type** dropdown list.
2. Enter the **Start Date** and **End Date** of the program records to include.
3. Select an **Ad hoc filter** from the dropdown list to reduce the amount of students included in the extract.
4. Select the desired **Report Format**.
5. Select the desired **Calendars** from which to report students.
6. Click the **Generate Extract** or the **Submit to Batch** button. The report displays in the selected format.
