The BIE Federal Reporting tool supports the BIE's accountability system that identifies schools that could benefit from additional support and interventions. Every three years the BIE will assess and rank a school's accountability standing based on the following indicators:

- *Academic Achievement* - proficiency on statewide Math and English Language Arts (ELA) Assessments
- *Other Academic Indicator* - proficiency on statewide Science Assessment
- *English Learner Progress* - only applies to schools with 10 or more English Learners
- *Four-Year Cohort Graduation Rate*
- *SQSS (School Quality or Student Success) Chronic Absenteeism*

The BIE Federal Reporting tool is available in both District Edition and NASIS State Edition sites.
