

Impact Aid Enrollment Count (Montana)

Last Modified on 07/17/2024 10:04 am CDT

Search Terms: Impact Aid Enrollment Count

The Impact Aid Enrollment Count searches within a selected date range to report the date with the highest number of enrollments per school for use in Federal Impact Aid reporting.

Reporting Population and Business Rules

- The Impact Aid Enrollment Count report will return the date with the highest enrollment count per school.
 - Users are required to select an enrollment type(s) to be included in the query.
 - The query will not include enrollments that are marked exclude, or in excluded calendars and grade levels UNLESS the Include Excluded Enrollments box is checked.
 - The query will find the date with the highest number of enrolled students within the selected date range for each school selected.
 - The guery will count distinct enrollments within a school.
 - If a student has overlapping enrollments within the same school they will only be counted 1 time.
 - Students with the checkbox Extracurricular Activities Only marked on their enrollment are excluded from attendance calculations used within the report.

Generate the Report

- 1. Enter the Start Date and End Date. Only enrollment records within this date range are considered for reporting.
- Select the Enrollment Service Type. Only enrollment records with this Service Type are
 considered for reporting. You must select a value in order for data to report in the
 extract.
- To have excluded enrollments included in the report, mark the Include Excluded Enrollments checkbox.

Marking this checkbox does **NOT** change the reporting logic for extracurricular students. Students who have the **Extracurricular Activities Only** checkbox marked on their enrollment are still excluded from the report.

- 4. Select the report **Format**.
- 5. Select the School Year.
- 6. Select which **School(s)** will report data.
- 7. Select how the data is generated/sent:
 - **Generate Report** Select this option to generate the report immediately.
 - **Submit to Batch** Select this option to schedule when the report will be generated. The report will appear in the Batch Queue List.

Data Elements

Data Element	Description	UI Path and Database Field
District Name	The name of the Montana district.	Enrollment District.name
School Number	The unique school number assigned by the OPI. Must be 4 characters long.	Enrollment School.number
School Name	Name of the School where enrollments were counted.	Enrollment School.name

Data Element	Description	UI Path and Database Field
Highest Enrollment Date	Date where the most students were enrolled in the school. If there are multiple dates where the number of enrollments for the school was at its highest point display the first instructional date where the number was reached. Instructional Day is determined by the date being checked as a School Day and Instruction Day in at least one calendar for the school. If the school does not have Days set up in any calendars report the highest enrollment date within the Date Range.	Calculated
Total Enrollment Count	Report the total number of distinct students enrolled in the school on the Highest Enrollment Date.	Calculated
Enrollment Service Type	Report the Enrollment Service Type(s) included in the query. List the enrollment service types selected in the UI, separated by a comma. • P for Primary • S for Secondary • N for Special Ed Eg., 'P, S, N' when all Enrollment Service Types	Impact Aid Enrollment Count > Enrollment Service Type
Include Excluded Enrollments	are selected. Report if the Count included enrollments marked as 'Exclude' or enrollments from excluded calendars and grade levels. Report 'Y' when the Include Excluded Enrollments is checked, else report 'N'	Impact Aid Enrollment Count > Include Excluded Enrollments
Date Range	Report the Date Range selected in the extract editor	Impact Aid Enrollment Count > Date Range

Data Element	Description	UI Path and Database Field
4th School Day	Report the 4th day of school for the year. • 4th School Day can be outside of the Date Range but must be within the same school year. • If the school has multiple calendars, report the earliest Day #4 out of all the calendars • If the school does not have any calendars with Days set up, leave blank.	Day Setup > Day Detail > Day # Calculated
