MN v3.3 - Sections Resource Preferences

Last Modified on 06/18/2025 11:59 am CDT

The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.
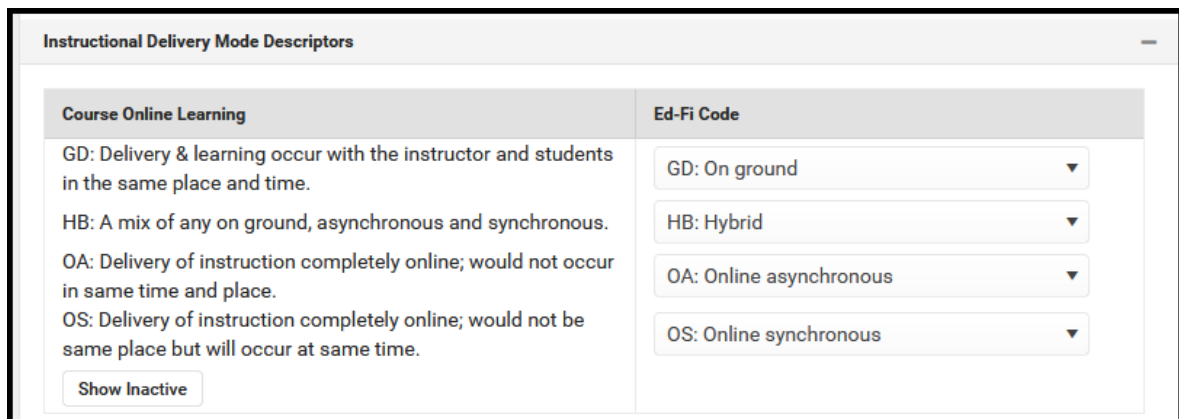

The following describes how to set the resource preferences for the Sections resource.

 If a mapping is changed, a resync must be performed on the resource in order for the new mappings to send correctly.

1. Select the appropriate **Ed-Fi Code** for the Instructional Delivery Mode Descriptors. The **Show Inactive** button can be used to show Instructional Delivery Mode Descriptors that are not active.

    Any item not mapped will not report to Ed-Fi.

Course Online Learning	
Attribute Dictionary	System Settings > Custom Data and Links > Core Attribute/Dictionary > Course > Online Learning
UI Location	Scheduling & Courses > Courses > Course Information > Online Learning

2. Select a Instructional Language Override if necessary.

    The Instructional Language Override mapping only needs to be populated if the code does not match a code that is in the Ed-Fi Code list.

Instructional Language Overrides	
UI Location	Scheduling & Courses > Courses > Course Information > Instruction Language

Instructional Languages Override   −

Course Instruction Language	Ed-Fi Code	
No records mapped.		

Add

3. Select the appropriate **Ed-Fi Code** for the Course Medium of Instruction Descriptors. The **Show Inactive** button can be used to show Medium of Instruction Descriptors that are not active.

Course Instruction Method / EE Location	
Attribute Dictionary	System Settings > Custom Data and Links > Core Attribute/Dictionary > Course > Instruction Method/EE Location
UI Location	Scheduling & Courses > Courses > Course Information > Instruction Method / EE Location

4. Select the appropriate **Ed-Fi Code** for the Section Medium of Instruction Descriptors. The **Show Inactive** button can be used to show Medium of Instruction Descriptors that are not active.

Section Instruction Method Override	
Attribute Dictionary	System Settings > Custom Data and Links > Core Attribute/Dictionary > Course > Instruction Method Override
UI Location	Scheduling & Courses > Course > Section Information > Instruction Method Override

Section Medium of Instruction Descriptors
