Technical Information

See the Technical Information - Release Pack Campus.2132 (https://kb.infinitecampus.com/help/technical-information-release-pack-campus2132) article for a list of schema changes in this release.

Activity Registration

Activity Registration Roll Forward (SIS-147481) **[Enhancement]**

A new tool called "Activity Roll Forward" is now available for districts that would like to roll activities forward en masse. When activities are rolled forward, the district can update the registration and activity dates as well as make any necessary to changes to the activities forms or details. The roll forward process creates new activities and adds them to the ""Upcoming"" section of the Activity Monitor.

Future Dated Forms could not be selected when creating a copy or adding a future-dated activity. This issue was corrected.

Activity Registration Roster information is now available in Ad hoc reporting.

Blended Learning

Blended Learning Group - Cascade Enrollment End Date Preference (SIS-147708) (SIS-145133) **[Enhancement]**

In the Campus.2128 Release Pack, a new System Preference for Cascade Enrollment End Date to Blended Learning Group Assignment End Date was added. When this is preference is set to Yes, the Enrollment End Batch tool ends the student's Blended Learning Group Assignment with the same date as the Enrollment record. Previously, the Enrollment End Batch was not doing this.

In addition, this System Preference is ONLY available in District Edition.

This update also corrects errors received when generating the Sub Attendance Roster Report.

OneRoster

OneRoster - Missing Assignments (SIS-146587)

Logic for scores imported via OneRoster has been updated as follows: If an assignment is received via OneRoster that has a score and a status of notSubmitted (OneRoster 1.1) or missing (OneRoster 1.2), the assignment is flagged as Missing and the score is displayed throughout Instruction. The calculation for in-progress grades has been updated so that if a score is entered for an assignment flagged as Missing, that score contributes to the student's grade. Missing assignments can only have scores if 1) the school does not have a Missing Assignment Percentage set or 2) the score was received via the OneRoster API.

BIE

BIE– BIE Consolidated Report Card additional sections released (SIS-129893) **[Enhancement]**

All sections are now available for reporting in the BIE Consolidated Report Card.

The BIE Consolidated Report Card and Individual School Report Card provides information related to the requirements of the BIE's Standards, Assessments and Accountability System (SAAS). To gauge individual school student performance levels and BIE student performance levels overall, this report measures the following academic and accountability indicators:

- Academic Achievement - proficiency on statewide Math and English Language Arts (ELA) Assessments
- Other Academic Indicator - proficiency on statewide Science Assessment
- English Learner Progress - only applies to schools with 10 or more English Learners
- Four-Year Cohort Graduation Rate
- SQSS (School Quality or Student Success) Chronic Absenteeism

Information obtained from the BIE Consolidated Report Card will assist the BIE in creating a roadmap for school improvement and support for the lowest performing schools.

This report uses data collected and stored on the certification tables of the BIE Attendance Data Mart, BIE Assessment Data Mart and BIE Graduation Rate Data Mart.

BIE– Identifying BIE reports containing PII (SIS-147491)

An enhancement has been made to the header of BIE PDF and DOCX reports containing PII. PII (Personally Identifying Information) is private or sensitive information that can be used to personally identify or personally contact an individual. Examples of PII include (but are not limited to): first and last name, birth date, SSN, NASIS ID, and a person’s physical address. To protect privacy, any BIE PDF or DOCX report that contains PII will include the following statement in the report header: “CONTROLLED: This page contains PII and should be handled to protect privacy.”

Due to the number of reports in the product, this will be an ongoing process with the current focus on commonly used reports.
