Tool Search: CCLC

The 21st Century Community Learning Centers (CCLC) support the creation of community learning centers that provide academic enrichment opportunities during non-school hours for children, particularly students who attend high-poverty and low-performing schools. The program helps students meet state and local student standards in core academic subjects, such as reading and math; offers students a broad array of enrichment activities that complement their regular academic programs; and offers literacy and other educational services to the families of participating children. Fields in the 21st CCLC tool specific to New Hampshire are described below.

Please see the core 21st CCLC article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Alternative Education records.
