

SPED State Reporting

Last Modified on 07/24/2025 10:36 am CDT

[Summary Overview](#) | [State Reporting and Data Entry](#) | [SPED Flags](#) | [Tool Rights](#) | [State-Specific Information Links](#)

Tool Search: SPED State Reporting

The Special Education State Reporting allows users to store and manage student Special Education state reporting data. This tool removes the legal burden of having a Special Education team meeting to amend the setting for age-based changes, such as an early childhood student aging out. Users can use one tool to manage students' data without modifying their special ed documents.

This tool contains several sections: Summary Overview, State Reporting and Data Entry, and Flags.

Fields vary by state. Please see your [state-specific article](#) for more information on Special Education State Reporting procedures in your state.

Summary Overview

[Plan and Evaluation Information](#)

The Summary Overview section provides a read-only view of Special Education data from the student's evaluation(s) and/or plan(s). Users can select which plan or evaluation to view a summary from the **Plan to View** or **Evaluation to View** dropdowns. Click the **Select** button to confirm the selection. The read-only fields that display in this section are state-specific. The following screenshot is a Delaware example.

This section has its own tool rights and may not be available in your state.

Plan and Evaluation Information

The Plan and Evaluation Information sections are specific to your state. See your [state-specific article](#) for additional information.

State Reporting and Data Entry

[Add a New Record](#) | [Delete or End a Record](#) | [State Reporting and Data Entry fields in Ad hoc](#)

The State Reporting and Data Entry section allows users to enter reported Special Ed data that is not stored on a student's document. This section is specific to your state.

State Editions: States can request additional fields they want districts to have available for tracking. These could be fields for compliance tracking that are not necessarily reported.

District Editions: State-reported fields available here are added for District Editions only. However, District and State Edition users can add custom fields to this section.

Montana Example of the Special Ed State Reporting and Data Entry Detail Screen

Add a New Record

A new record should be created anytime a student enters a new Special Education Setting. Fields vary by state.

State Reporting and Data Entry records cannot overlap. This means the previous record must

end before the new record begins.

Delete or End a Record

To delete a State Reporting record, select the record from within the State Reporting Editor window and click the **Delete** button. This action COMPLETELY removes the record from Campus. Only do this when the record was completed in error.

To end a record, select the record from within the State Reporting Editor window and enter an **End Date**. This ends the record and allows a new record to be added, if applicable.

State Reporting and Data Entry fields in Ad hoc

Special Education State Reporting Information is available in the Query Wizard for Student Data Type filters in the **Student > Special Ed State** folder.

SPED Flags

[SPED Flags List View](#) | [Student SPED Flag Editor Fields](#) | [Flags Setup](#) | [Other Special Education Flag Fields in Ad hoc](#)

The SPED Flags section allows users to assign Special Education Flags to students without using

the core student [Flags](#) tool. A SPED Flag can be used to quickly identify special education students from an icon in the Campus header. This section has its own tool rights.

All Special Education Flags display, no matter where they were assigned to a student. This includes Flags assigned via the [Student Flag](#), [Batch Program Assignment Wizard](#), or [Task Scheduler](#) tools.

SPED Flags List View

SPED Flags List View

The following columns display on the list view of SPED Flags.

Column Name	Description
Start Date	The first day the flag is active for the student.
End Date	The last day the flag was active for the student.
Flag Type	The name of the special education flag. This displays in the student's header.
User Warning	Additional comments concerning the flag. This displays when hovering over or clicking the flag name in the student's header. Users often enter the student's case manager into the user warning field.
Flag Icon	The image associated with the flag. This displays next to the flag name in the student's header.

Select an existing record or click **New** to open the **Student SPED Flag Editor**.

Student SPED Flag Editor Fields

Users can add new or edit existing Flags with the Student SPED Flag Editor.

Ad Hoc Query Wizard - Field Selection

Select fields to use for creating a filter for which logic and output formatting may be applied. Click a field within the All Fields window, or use the Add Function option to add the field to the Selected Fields window. To remove a field from the Selected Fields window, select the field(s) and click the back arrow <--. The output will sequence the fields in the order selected; however, the sequence can be changed on the Output Formatting screen. At least one field must be selected to continue.

Additional Flags Tool Rights Information

Tool Rights for Special Education Summary Flags are assigned at Student Info > Special Ed > Special Education Summary > SpedFlag Information.

Special Ed Flags tool rights assigned at Student Information > General > Flags > Special Ed do NOT impact Special Education Summary Flag access. Those rights only apply to Special Ed Flags assigned using the [Student Flag](#), [Batch Program Assignment Wizard](#), or [Task Scheduler](#) tools. See the [Student Information Tool Rights](#) article for additional information.
