Tool Search: SPED State Reporting

The Special Education State Reporting allows users to store and manage student Special Education state reporting data. This tool removes the legal burden of having a Special Education team meeting for an amendment to the setting for age-based changes such as an early childhood student aging out.

Fields vary by state. Please see your state's [State Tools](#) articles for more information on Special Education State Reporting procedures in your state.

Date	Special Ed Setting	Start Date	End Date	Exit Reason	Exit Date
05/16/2024	01: Regular Class inside reg. class 80% or more	01/01/2024	05/31/2024

## Add a New State Reporting Record

A new record should be created anytime a student is entering a new Special Education Setting.

State Reporting records cannot overlap. This means the previous record needs to be ended prior to the new record beginning.

1. Select the **New** icon. The State Reporting Detail editor displays.
2. Enter the **Start Date** of the record.
3. Select the student's **Disability**.
4. Select the student's Special Ed **Setting**.
5. Mark the **Alternate Assessment** checkbox (optional) if the student will be taking an alternate assessment.
6. Select the **Save** icon. The new Special Ed State Report record displays in the State Reporting Editor window.

## Delete and End a Special Education State Reporting Record

To delete a State Reporting record, select the record from within the State Reporting Editor window and click the **Delete** button. This action COMPLETELY removes the record from Campus. Only do this if the record was completed in error.

To end a record, select the record from within the State Reporting Editor window and enter an **End Date**. This ends the record and allows a new record to be added, if applicable.
