

# Indiana Ed-Fi v2.4/3.1 - Staff Education Organization Assignments Associations Resource Preferences

Last Modified on 08/04/2023 1:43 pm CDT

**Classic View:** System Administration > Ed-Fi

**Search Terms:** Ed-Fi

The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.

The following describes how to set the resource preferences for the Staff Education Organization Assignment Associations resource. If the Configure or Edit button do not display, then the resource does not need to be mapped and the toggle button can be used to turn the resource on or off.

If a mapping is changed, a resync must be performed on the resource in order for the new mappings to send correctly.

1. Select the appropriate **Ed-Fi Code** for the Employment District Assignment Code Descriptors. This resource can report for staff either from the district employment or district assignment record, this is why there are two mappings for the same thing.

Any item not mapped will not report to Ed-Fi.

Employment District Assignment Code	
Attribute Dictionary	System Administration > Custom > Attribute Dictionary > Employment > District Assignment Code
UI Location	Census> People> District Employment > Ed-Fi Org Title > Ed-Fi Code
