The Giftedtool tracks a student's participation in Gifted and Talented programming through enrichment, acceleration, and/or advanced curriculum. Gifted and Talented programs vary in name - Gifted, Gifted and Accelerated, etc. Schools can record a student's participation that includes a specific type of program or location or focus, note permission to participate, generate a summary report of the entered data, and a variety of other items that states may wish to capture.

The Gifted tool is used to track information for specialized curriculum.
