Student Digital Resources Editor.

## Extract Logic

► [Click here to expand...](#)

One record reports per eligible student.

## Student Logic

- To report, students must have an active enrollment on the snapshot date
- One student record reports per active enrollment per school
- A student record reports when the Enrollment End Date is after the Snapshot Date selected on the extract editor
- A student record reports when the Enrollment Start Date is on or before the Snapshot Date selected on the extract editor

## Validation Errors:

### Student:

If a student has an active enrollment, but does NOT have an active Digital Equity record, a record still reports in this extract. However, the digital resource fields will be null and generate a warning or error upon state submission.

## Extract Editor
