Tool Search: Demographics

The Census module tracks the entry of every person in Infinite Campus - parents, staff, students, emergency contacts, doctors, etc. Demographic data is used throughout Campus, utilizing historic details of each person. Some fields in the Census module are unique to each state. Other fields in the Census module do not require unique, state-specific data. However, many of these fields are required and data entry is necessary. For more information on these fields, see [Person Information](#).
