The Section 504 tool allows staff to record students' start and end dates for Section 504 program participation. Staff can then print a Summary Report of the Section 504 information.

Section 504 refers to Section 504 of the Rehabilitation Act of 1973, which provides protections for individuals with disabilities to participate in education, programs, activities, employment, etc. The definition for "individuals with disabilities" under Section 504 is broader than the disability definition for IEPs and the IEP governing process.

At this time, the Section 504 tool does not include fields specifically related to the state of Montana. Please see the [Section 504](#) article for more information on this tool.
