The CTE Data Reports editor provides users with the ability to generate and submit CTE data to the Nevada Department of Education. This tool provides three report types:

- Student Course Combined:
  - Version:
    - Count Date: Reports all students actively enrolled and rostered into a CTE course as of the count date.
    - End of Year: Reports all CTE students and CTE courses completed during the reported period.
- Student Concentrators:
  - Reports all students who have completed at least two credits towards a CTE Program of Study.
- Student Graduates:
  - Reports all students who have completed a CTE Program of Study and are no longer enrolled in the district.

As of the **Campus.2152** release, CTE Extracts (Nevada) have been rewritten to CTE Reports (Nevada).

CTE Data Reports

This extract editor will generate files to report CTE data. The reports will contain records for CTE students only as determined by their course roster entries.

## Report Logic

The following reporting logic is used to generate each of the available Report Types.

▶ [Click here to expand...](#)

### Student Course Combined

- All enrollment types are considered
- Student must have an active CTE course roster or earned credit in a CTE course
- Courses are considered CTE if the SCED code or the first five digits of the State Code are included in Appendix A
- For every unique student/course combination, one line reports
- This report is available in two versions:
  - Count Date
    - Student must have an active enrollment record on the Effective Date
    - Student must have an active roster record in a CTE course on the Effective Date
  - End of Year
    - Student must have an active enrollment record at some point during the reporting period indicated by the dates entered in the Start and End Date fields in the Extract Editor
    - Student must have earned credit in a CTE course during the reporting period indicated by the dates entered in the Start and End Date fields in the Extract Editor
- When the student's course or section is marked as cross-site and the Exclude Cross-Site Data checkbox is marked on the extract editor, the cross-site course or section enrollment does NOT generate a record.

### Student Concentrators

- All enrollment types are considered
- Student must have an active enrollment record at some point during the reporting period indicated by the dates entered in the Start and End Date fields in the Extract Editor.
- Student must have completed specific CTE program criteria
- Student must have earned at least 1 credit in an L1 course AND at least 1 credit in an L2 course both tied to the same Program of Study
- Courses where SCED Course Level = E are not considered
- Courses are considered CTE if the SCED code or the first five digits of the State Code are included in Appendix A
- One line reports for every Program of Study that meets all requirements when Summary is selected
- One line reports for every course tied to a Program of Study that meets all requirements when Detail is selected

### Student Graduates

- All enrollment types are considered
- Student must have an active enrollment record at some point during the reporting period indicated by the dates entered in the Start and End Date fields in the Extract Editor.
- Student enrollment must have an End Status of W3F
- Student must have Diploma Type: B18, B19, B24, B26, B27 or H
- Student must have completed specific CTE program criteria
- Student must have earned at least 1 credit in an L1 course AND at least 1 credit in an L2 course both tied to the same Program of Study
- Courses are considered CTE if the SCED code or the first five digits of the State Code are included in Appendix A
- Courses where SCED Course Level = E are not considered
- Program of Study is defined by SCED Code - see Appendix A
- If Program of Study is marked as "Will never pull a Concentrator" the Program will not report
  - If student has completed the indicated concentrator status lines in a Program of Study marked as "Will never pull a Concentrator" AND they have achieved a Certification in the State Award Code listed for

that same Program of Study they will report one record for that combination.

- One line reports for every course tied to a Program of Study that meets all requirements
