The CTE Data Reports editor provides users with the ability to generate and submit CTE data to the Nevada Department of Education. This tool provides three report types:

- Student Course Combined:
  - Version:
    - Count Date: Reports all students actively enrolled and rostered into a CTE course as of the count date.
    - End of Year: Reports all CTE students and CTE courses completed during the reported period.
- Student Concentrators:
  - Reports all students who have completed at least two credits towards a CTE Program of Study.
- Student Graduates:
  - Reports all students who have completed a CTE Program of Study and are no longer enrolled in the district.

> As of the **Campus.2152** release, CTE Extracts (Nevada) have been rewritten to CTE Reports (Nevada).

Report Logic

The following reporting logic is used to generate each of the available Report Types.

▶ Click here to expand...

Student Course Combined

- All enrollment types are considered
- Student must have an active CTE course roster or earned credit in a CTE course
- Courses are considered CTE if the SCED code or the first five digits of the State Code are included in Appendix A
- For every unique student/course combination, one line reports
- This report is available in two versions:
    - Count Date
        - Student must have an active enrollment record on the Effective Date
        - Student must have an active roster record in a CTE course on the Effective Date
    - End of Year
        - Student must have an active enrollment record at some point during the reporting period indicated by the dates entered in the Start and End Date fields in the Extract Editor
        - Student must have earned credit in a CTE course during the reporting period indicated by the dates entered in the Start and End Date fields in the Extract Editor
- When the student's course or section is marked as cross-site and the Exclude Cross-Site Data checkbox is marked on the extract editor, the cross-site course or section enrollment does NOT generate a record.

Student Concentrators

- All enrollment types are considered
- Student must have an active enrollment record at some point during the reporting period indicated by the dates entered in the Start and End Date fields in the Extract Editor.
- Student must have completed specific CTE program criteria
- Student must have earned at least 1 credit in an L1 course AND at least 1 credit in an L2 course both tied to the same Program of Study
- Courses where SCED Course Level = E are not considered
- Courses are considered CTE if the SCED code or the first five digits of the State Code are included in Appendix A
- One line reports for every Program of Study that meets all requirements when Summary is selected
- One line reports for every course tied to a Program of Study that meets all requirements when Detail is selected

Student Graduates

- All enrollment types are considered
- Student must have an active enrollment record at some point during the reporting period indicated by the dates entered in the Start and End Date fields in the Extract Editor.
- Student enrollment must have an End Status of W3F
- Student must have Diploma Type: B18, B19, B24, B26, B27 or H
- Student must have completed specific CTE program criteria
- Student must have earned at least 1 credit in an L1 course AND at least 1 credit in an L2 course both tied to the same Program of Study
- Courses are considered CTE if the SCED code or the first five digits of the State Code are included in Appendix A
- Courses where SCED Course Level = E are not considered
- Program of Study is defined by SCED Code - see Appendix A
- If Program of Study is marked as "Will never pull a Concentrator" the Program will not report
    - If student has completed the indicated concentrator status lines in a Program of Study marked as "Will never pull a Concentrator" AND they have achieved a Certification in the State Award Code listed for

that same Program of Study they will report one record for that combination.
- One line reports for every course tied to a Program of Study that meets all requirements
