# State-Specific Notes

## Arizona

Arizona - Ed-Fi Resources Enrollment Updates (SIS-150341)

The ‘ZZZ - Same school calendar transfer - Do NOT report to state’ value has been added to the State Start Status and State End Status fields on Enrollments.

The logic in the Student School Association resource has been updated so that if the enrollment end status is ZZZ, the end date is not sent. The Student School Association resource logic has also been updated so that if a student has multiple consecutive enrollments where the end status is ZZZ and the start status is ZZZ, only one resource is reported where the start date is the earliest

start date of the enrollments (start status is something other than ZZZ) and the end date is the latest end date of the enrollments (end status is something other than ZZZ).

The end date logic in the Student Education Organization Responsibility Associations and Student Special Education Program Associations resources has been updated so that the enrollment end date used is the same end date used in the Student School Associations resource.

The end date logic for all needs and programs in the Student Needs and Student Programs Associations resources has been updated so that the enrollment end date used is the same end date used in the Student School Associations resource.

Any student switching calendars in the same school/grade needs to have their enrollments updated so the initial enrollment has a ZZZ end status and the subsequent enrollment has a ZZZ start status.

Arizona - Enrollment Validation (SIS-150513)

A new Enrollment Start/End status with a code of ZZZ was added for Arizona districts to use when students move between calendars in Campus. The expectation of use for this code is that another enrollment in the same school, with the same grade and local service type, will start the next instructional day, just in a different calendar. A validation check was also added to report any students that have an enrollment with an end status of ZZZ, but no follow-up enrollment that is in the same school, grade, and local service type that starts the next instructional day.

Arizona - Ed-Fi Student Education Organization Associations Update for Military Records (SIS-151075)
