Tool Search: Census

Census tracks every person entry in Infinite Campus - parents, staff, students, emergency contacts, doctors, etc. Demographic data is used throughout Campus, utilizing historic and current details of each person. Some fields in the Census module are unique to each state. Other fields in the Census module do not require unique, state-specific data. However, many of these fields are required and data entry in these fields is necessary.

## Identities

The Identities tool acts as an historical record of the person's demographic information. While the information on the [Demographics](#) tool is displayed on the Identities tool, changes should be made here.

Types of changes include:

- Name and Legal Name
- Gender
- Social Security number
- Race/Ethnicity
- Nickname

Previous identity information is not lost when it is modified, but an end date is entered for the previous identity and a start date is entered for the new identity.

See the core [Identities](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Identities records.

# Demographics

The Demographics tool is the basic area for viewing general person information within Campus. All people for whom data is tracked, including students, staff, parents/guardians, household members, etc., have a Demographics record, which includes name and gender from the Identities record, student and staff identification numbers and contact information.

See the core [Demographics](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Demographics records.

## Person Identifiers

Person Identifiers like Student Number and Student State ID are used in state reports to identify student records. Staff identification - Local Staff ID, State Staff ID - are also recorded here.

Follow district guidelines when creating or importing these values.

District Employment must have active district employment record. This record indicates the student is actively (no end date) or has been (end date) employed at the district. A District Assignment record is needed to indicate employment at a particular school/building within the district.

See the core [District Employment](#) article for information on necessary tool rights, available Ad

hoc fields, and guidance on adding and printing employment records.

The screenshot shows the 'District Employment' page for Staff, Xavier. The page has a green header with the Infinite Campus logo. Below the header, the title 'District Employment' is displayed with a star icon. The staff member's name 'Staff, Xavier' and DOB are shown. A toolbar with 'Save' (blue), 'Delete' (red), 'New' (white), and 'Documents' (white) buttons is present. The main content area is divided into sections: 'Employment Records' (listing '#001 Independent District (02/17/2015 -)'), 'Employment Information' (containing fields for Start Date (02/17/2015), End Date, Staff Exit Reason, Teaching Start Year, Teaching Years Modifier (0), License Number, FTE Percent (0), Seniority, Education, Proficient Language, Not a US Citizen (unchecked), Expected HQ Date, and Means To HQ), and a footer note 'District Employment Record'.

## FTE of Assignment

Indicates what portion of the employee's FTE percent this particular district assignment represents.

► [Click here to expand...](#)

The field accepts both decimal and whole numbers (e.g., .5 or 50 to represent a half-time assignment). It is important for consistency and accuracy of reporting that the same numbering system is used for all employees (e.g. FTE of Assignment in decimal format for all employees).

FTE of Assignment is different than the FTE Percent on the District Employment editor.

- FTE of Assignment can be a percentage (50%, 75%, etc.), a decimal value (.50, .25, etc.) or a whole number (50, 75, etc.).
- FTE Percent can only be a whole number between 0-100.

This value is linked to the District Assignment on the Section Staff History tool.

## Staff Assignment Extract Reporting Logic

For Non-Teaching Assignments, the entered value reports on the Staff Assignment Extract.

For Teaching Assignments that are not active on the Last Friday in September, the entered value in this field is divided by the total number of sections the staff person is actively teaching during the Staff Assignment Extract reporting period that are not active on the Last Friday in September. This logic enables Sections not active on the last Friday in September to report the FTE captured on the teacher's linked district assignment, divided by the cumulative number of sections taught.

For Teaching Assignments that are active on the Last Friday in September, the entered value is

divided by the total number of sections the teacher is actively teaching during the reporting period that are active on the Last Friday in September. This logic enables Sections active on the last Friday in September to report the same FTE value through the end of the year.
