Last Modified on 02/27/2025 1:00 pm CST

Tool Search: Special Ed Documents

The Individual Education Plan is used to capture student special education plan information and match the required documentation provided by the state of Hawaii. This document describes each editor, the section(s) of the print format that include the entered information, a description of each field on the editor, and any special considerations and instructions. For information on general functionality, navigation, and additional plan and evaluation features, see the core [Plan and Evaluation Information](#) article.

Plan formats are selected in [Plan Types](#). Documented below is the IEP with Transition, with references to editors that are not included on the without Transition Plan. The current print formats include:

- **HI IEP with Transition 2022**
- **HI IEP without Transition 2022**

## Education Plan

The Education Plan editor includes the various dates associated with the plan, why the IEP meeting was held, and how student progress is reported.

This editor must be saved before entering data into other editors.

## Parent/Guardian Information

The Parent/Guardian Information editor populates based on the guardian checkbox on the student's [Relationships](#) tool. The editor includes [Demographics](#) information for the student's guardian.

The **Delete** button next to each parent/guardian can be used to remove a parent/guardian from the IEP.

The **Refresh** button retrieves a new copy of parent/guardians' data. This also returns any accidentally deleted people. Manually entered fields do not change when the refresh button is clicked. The user must **Save** after clicking Refresh to capture changes.

## Considerations of Special Factors

The Consideration of Special Factors editor is used to document the special factors the team is considering when developing the student's plan.

Considerations of Special Factors Editor 8 of 26

NOT STARTED

**Considerations when developing an IEP**  
The IEP team must consider the factors including special factors in the development, review, and revision of each student's IEP.  
*The IEP care coordinator should review and explain the factors prior to developing the PLAAFP so that the IEP team understands what they need to consider when developing the IEP.*

**The following factors must be considered:**

1. Strengths of the student
2. Concerns of parents (if any) for improving academic and functional performance in school
3. Results of the initial or most recent evaluation
4. Academic, developmental, functional needs of the student
5. Results of State and district assessment

**Special Factors must be considered** (see items 1-6 below)  
*After the IEP team has developed the IEP, the IEP care coordinator should go back and indicate if the Special Factors that were checked off were addressed.*

**1. The student's behavior impedes the student's learning or the learning of others.**  
If yes, the IEP team must consider, if appropriate, strategies to address the behavior (including positive behavioral interventions, strategies and supports).

**2. The student is limited in English proficiency.**  
If yes, the IEP team must consider the student's language needs as those needs relate to the IEP.

## PLAAFP: Eligibility and the Effects of the Disability

The PLAAFP: Eligibility and the Effects of the Disability editor is used to document the ways in which the student's disability impacts them.

PLAAFP: Eligibility and the Effects of the Disability IN PROGRESS Editor 9 of 26

IEP teams must document the impact of the disability (how it impacts progress academically, developmentally, functionally) (§§300.320-300.324), and the root cause (why the student is unable to access standards, progress in the general curriculum and/or engage and participate in age appropriate activities). Information must be sufficient to enable the IEP team to design good instruction and make appropriate service decisions.

**Eligibility Category**

The PLAAFP: Transition Planning editor is used to document age-appropriate transition plans for the student.

This editor is not available on the HI IEP without Transition plan.

PLAAFP: Transition Planning Editor 10 of 26

Age-appropriate transition assessments help students identify their preferences, interests, needs and strengths in relation to education, training, employment and where appropriate independent living skills.

*For each student beginning at age 14 (of younger if determined appropriate by the IEP team), the Age Appropriate Transition Assessments must be administered.*

Special Education / Specially Designed Instruction

**Special Education / Specially Designed Instruction**  
 Adapting, as appropriate to the needs of an eligible student, the content, methodology, or delivery of instruction to address the unique needs of the student that result from the student's disability, and ensure access of the student to the general curriculum, so the student can meet the educational standards of the public agency that apply to all students.

**Description** \*   
 Review each need and corresponding goal(s) (i.e., critical skills the student needs to learn). What special education/specially designed instruction (SDI) does the student need to close the gap. Special education/SDI is the delivery of evidence based practices (EBP) and interventions by the teacher/specialist or the paraprofessional under the direction of the special education teacher.

## Extended School Year

The Extended School Year editor is used to document the student's participation in an extended school year

program.

Extended School Year NOT STARTED
Editor 20 of 26

An extended school year is to be included in the Individualized Education Program (IEP) whenever it is found to be necessary to enable the student with a disability to receive an appropriate education, that is, specialized instruction and related services which are individually designed to provide an educational benefit to the student with a disability.

*Eligibility depends upon many factors including, but not limited to: the nature of the disabling condition; severity of the disabling condition; areas of learning crucial to attaining the goal of self-sufficiency and independence from caretakers; extent of regression caused by interruption of educational programming; and rate or recoupment following interruption of educational programming. Data to determine eligibility for ESY needs to be documented in the PLAAFP.*

**State-Wide Assessments**

Students with disabilities are to take part in state or district-wide assessments with appropriate accommodations and alternate assessments, if necessary.

*The selection of accessibility supports is made by the IEP team to address individual student needs. The supports that are provided on statewide assessments must be familiar to the student and match those instructional supports and accommodations in the classroom. Identify only those accommodations for each assessment that do not invalidate the score.*

**Assessment \*** **Assessment Manner \***

**A student may be eligible to take the Hawaii Alternate Assessment if the IEP team determines that the student meets all of the following criteria:**

- The student demonstrates significant cognitive disabilities that may be combined with limited adaptive skills, physical or behavioral limitations.
- The student requires a highly specialized educational program with intensive modifications and supports in order to access grade level academic standards.
- The student's daily instruction is substantively different from that of their peers without disabilities and requires extensive, repeated individualized instruction and support across multiple settings.
- The student's difficulty with the demands of the general academic curriculum is not due to social, cultural or environmental factors; expectations of poor performance; or excessive absences.
