Activity Registration

Activity Registration Maintenance (SIS-151125)

The following improvements were made to Activity Registration.

- The filter fields on the Activity Monitor and Activity Dashboard were not displaying when users clicked New then clicked Cancel. This issue was corrected.
- The Registration Close Date may now be on (or after) the Registration Open Date to allow for

single-day registrations.
- To help limit the number of activities that display and improve usability, a new checkbox called Prior Year Only was added at the end of the filters for the following screens. When the checkbox is marked, only activities from the prior calendar year display.
  - Activity Monitor - Previous tab
  - Activity Dashboard - Previous tab
  - Roll Forward Selection screen

Assignments Outside of Roster Dates - Follow-Up (SIS-151864)

The indicator in the Grade Book released with SIS-151249 that shows if a student was not rostered in a section on the due date of an assignment has been updated. If the student has a score for an assignment they were not rostered for, a gray square displays in the bottom left corner of the score cell, instead of a yellow triangle, which was difficult to see when pass/fail color coding was turned on.

Campus Learning

Learning Interoperability/Digital Learning Applications Configuration Update (SIS-148426) **[Enhancement]**

The Learning Interoperability/Digital Learning Applications Configuration tool has been updated so that when generating a new OneRoster connection, users have the option of selecting which version of OneRoster and OAuth the connection should have.

With this change, users can select OAuth 2.0 for OneRoster 1.1 connections, whereas previously, OAuth 2.0 was only available for OneRoster 1.2. Districts should be in contact with vendors to verify which version of OneRoster and OAuth they support prior to making new connections.

In the configuration tool, OneRoster connections now display grouped together, with the OneRoster and OAuth versions noted. Click 'Edit' to view details about the connection, including URLs, keys, and secrets.

Campus Learning - Quiz Updates (SIS-151284) **[Enhancement]**

Updates have been made to quizzes in Instruction, including available library sharing and searching, and enhanced feedback options.

When creating a quiz, teachers now have the option of sharing it to a quiz library, which makes the quiz available to other teachers in the district. Note: to share quizzes, teachers must be given the new 'Curriculum Library District Share' tool right.

When adding a quiz to a section, teachers can start from scratch, search for complete quizzes in the library, or search for individual questions to add to their own quizzes. When a teachers uses a quiz or quiz question from the library, a copy is created, leaving the original in the library intact and allowing the teacher to modify their copy as desired.

This update also includes enhanced feedback options. Teachers now have the option of whether answers and feedback are displayed to students when they finish the quiz or not, which helps keep answers secret. Teachers can edit this feedback setting after the quiz has been taken. For example, if multiple sections are taking a quiz, teachers can wait to release answers at the end of the day. While quizzes are still scored automatically, teachers also have a new option of providing question-level feedback to students by clicking 'Evaluate Work' for the assignment in the Grade Book or opening the assignment and clicking 'Score.' This feedback is also governed by the assignment-level feedback setting.

Census

Census– Protected Identity Fields Not Rolling Forward With New Identity Record (SIS-121243)

A tool right issue prevented existing Protected Identity Information field values from rolling forward with a new identity record if the user who created the new record did not minimally have Read rights to Legal Name & Gender (Tool Rights: Census > People > Identities > Legal Name & Gender). This has been fixed.

Users do not need tool rights to the Protected Identity Information section in the Identities tab to create a new identity record. Protected fields continue to only be accessible when a user minimally has Read rights to Census > People > Identities > Legal Name & Gender.

Counseling

NEW Centralized Contact Log (SIS-148293) **[Enhancement]**

A new Contact Log tool has been added to Student Information General, to act as a centralized hub for all other Contact Log records available in the product. All Contact Log tools have been given a new interface that allows for easier entry of contact log records.

When assigned proper tool rights, users can view and create Contact Log records from this new location, or any of the other Contact Log tools. These new rights have been automatically assigned upon taking this release; administrators will need to modify these rights to limit access. Users who were assigned tool rights to Contact Log prior to this release have been assigned the same rights.

Note that Tool Rights have changed for all Contact Logs to require an Access right to Contact Log in addition to requiring standard RWAD tool rights. See the article below for guidance.

Contact Log records created in Meetings Management and Attendance Letters can also be viewed from this centralized location.

The Contact Log is available in the following locations:

- Counseling
- Health
- PLP
- Response to Intervention
- Special Education
- Localized Contact Log Tools - includes Literacy (CO), ILPA (KY) and English Learners (HI)

See the article below for detailed information on the new Contact Log.

DIS/SIF

SIF Record Deleter Tool Now Available (SIS-148717) **[Enhancement]**

A new SIF Record Deleter tool is now available for select states. This tool allows users to delete specific SIF records in an effort to assist in cleaning up troublesome SIF data such as orphaned records or records that were supposed to be excluded but were erroneously sent.

> Note: This tool should not be used to mass delete SIF records. The deletion process is intensive and takes time to complete which will cause issues if a mass deletion is executed and SIF change events are occurring while the tool is still processing the request. This tool should not be used to remove students who should no longer report SIF data. These students should be properly end dated or deleted from Infinite Campus.

Early Warning

Early Warning Tool Now Available in State Editions of Infinite Campus (SIS-147717)
[Enhancement]

A new Early Warning tool has been added to State Editions of Infinite Campus who have purchased the Campus Analytics Suite. Using this tool, users can now access, view, and filter student Early Warning scores by district, school (or All Schools), and/or grade level(s). Student Early Warning score data is then displayed in a sortable table, where users can add specific students to their watchlist as well as export table data into an Excel spreadsheet.
