- Previously, if an OLR Health Condition record was posted to Campus but then the linked Campus Health Condition record was deleted afterwards, it will not be possible to re-post the OLR Health Condition since the OLR Health Condition will be linked to an orphaned campus conditionID. There was no indicator in the Health Staff Processing tool that the records are linked to orphaned IDs, so health administrators attempt to post the records and then nothing happened. This change will delete the orphaned Campus Condition ID prior to attempting to post the OLR Health Condition so that it will be able to post as expected. (CDP-1376)
