Pleat Setup

Census > Online Registration > OLR Set Up > Pleat Setup

- The "Enable copying this pleat's custom, non-default field data from other students" option is now hidden for non-Student and non-Custom pleats in the Pleat Setup tool. (CDP-805)

Student Entry

Portal > Online Registration > Student > Demographics

- A display issue with the warning message for when the age of a student in an OLR application is outside the age range set in the Campus Grade Level Definitions has been resolved. This warning also displays after changing the Birthdate or the Grade Level, when applicable. (CDP-808)

OLR Information Center

Census > Online Registration > OLR Setup > OLR Information Center

- A message has been added to the OLR Information Center if Custom pull, post, or file path entries created by custom development exist for troubleshooting purposes. (CDP-810)

OLR System Settings

Census > Online Registration > OLR Set Up > OLR System Settings

- Previously, the "Prevent posting of application if any address in application is not linked" OLR System Setting did not recognize pulled in addresses as linked, making it impossible to post Existing-type OLR applications when that setting was enabled. This has been fixed. (CDP-819)

OLR-5.2.2 (10/11/2019)

This version of OLR is compatible with Campus.1941.

OLR System Settings

Census > Online Registration > OLR Setup > OLR System Settings

- The functionality of the "Set school to boundary if blank" option on the OLR System Settings tool has been updated. When the School List field is disabled, the value always updates with the current boundary school for New type students when the student record is saved. This School List value will be blank if the current boundary school cannot be determined. For Existing type students, the School List value only updates upon save if the value is blank. Changes made to the boundary school in Campus or to the address in the OLR application will not update the School List field. (CDP-775)

Student Entry

Portal > Online Registration > Student

- A new column has been added to the Student tab of Online Registration applications. This column will list the current School List value for each student on the application. (CDP-775)

Summary Reports

Census > Reports > Online Registration Summary

- Previously, the Online Registration Summary Report was including all health conditions and medications if the student had multiple OLR applications for a given year. With this update, only the health condition and medication information from the most recent application reports. This case also addressed issues with the header text of the Summary Report. (CDP-778)

OLR Builder

Census > Online Registration > OLR Setup > OLR Builder

- The multi-select field type was added to the OLR Builder tool in OLR-5.2.1 (10/08/19). Several small issues with the validation and display of multi-select fields have been fixed with this release. (CDP-782)

Enter Applications

Portal > Online Registration

- The OLR Kiosk and Email Log In screens have been updated to work better with screen readers. (CDP-785)
