Ohio

Ohio - Student SPED Graduation Requirement (FE) Update (SIS-151229)

The Report Logic for the FE extract has been updated. First, the logic looks at the IEP with the earliest Start Date within the school year. A record reports for any exemptions marked as Y based on existing exemption logic if the Start Date falls within the extract reporting window. For this record, if IEP is marked as Initial or Annual Review, reports the Meeting Date. If IEP is marked as Transfer, reports Transfer Date. If IEP is marked as Amendment, reports Start Date. Next, the logic looks for any plans prior to the reported plan. If the student has a previous IEP, the logic compares current exemptions with the most recent previous IEP (date considered is based on the type of the IEP, as described above). If there are any exemptions marked in the previous IEP that are not marked in the current one, a record reports as N for each exemption. Finally, the logic looks for any plans after the earliest IEP in the school year. If there are subsequent IEPs, exemptions are again compared and records report for any differences.
