Tool Search: Transcripts

A transcript is a historical record of a student's performance in a course. The information listed on the transcript can vary from district to district depending on district preferences. Each district records grading information that students receive on transcripts and report cards. Grading information is connected to the course schedule of a student.

Additional Information fields provide further details on the transcript entry, and includes localized fields (used for state reports) and district-defined fields (created by the district) This section is collapsible or expandable by clicking the minus/plus sign on the right-hand side.

See the core [Transcripts](#) article for information on necessary tool rights, available Ad hoc fields, and general Transcript processes.

Transcript fields that are specific to the state of Idaho are described below. For all other inquiries, please visit the [Student Transcripts](#) article.

Student Transcript - Additional Fields Editor

College Issuing Credit

The College or school issuing the student credit.

▶ [Click here to expand...](#)

Class Level

Indicates the level of class instruction.

▶ [Click here to expand...](#)

College Credits Earned

Flags the course as one in which a student may earn College credit upon successful completion (passing grade) of the course.
