Report Logic

Only those students who qualify for free or reduced-price meals and who attended school due to the following are included:

- The school was primarily operating in a Remote Only or Hybrid learning mode due to COVID-19.
- The student opted into attending remotely full time.
- The student was forced to attend remotely for a short time due to quarantine.

One record per student who has an enrollment in the selected calendar(s) at any time during the reporting period (entered Start and End Dates on the Report Editor) are included. When a student has more than one enrollment, the most recent enrollment reports.

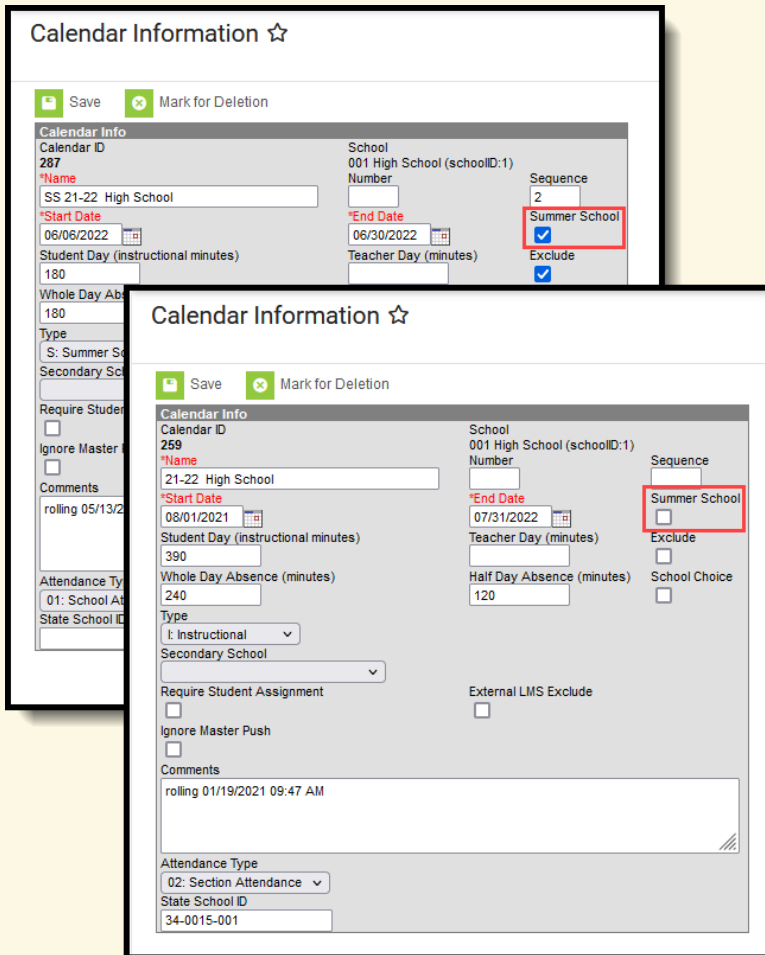

Students who are included in the report must meet the following requirements:

- They have an enrollment in the selected calendar of a school that qualifies for S-EBT benefits;
- They qualify for Free/Reduced meals by the submission of an income application or direct certification during the school year; AND

Students are not included when:

- The enrollment record is marked as No Show or as State Exclude.
- The grade level of enrollment is marked as State Exclude.
- The calendar of enrollment is marked as State Exclude.

When a calendar is NOT marked as Summer School, students do not report UNLESS a student would report as being absent for five or more days. A summer school calendar is determined by the checkbox on the [Calendar Information](#) tool.

Report Editor

Field	Description
Start Date	Entered date is used to return student data for those students actively enrolled on or after the entered date. Dates are entered <i>mmddyy</i> format or can be entered by selecting the calendar icon and choosing a date.
