Illinois - Gender Reporting (SIS-151902)

In accordance with Public Act 102-0543, ISBE now requires additional reporting on student demographic data as of the 2022-23 school year, as follows:

- The term 'Gender' is being retired at the end of the 2022 school year.
- Instead of Gender, the term 'Sex' will be used. This is defined as "a label a person is given at birth, based on ... the interpretation of the newborn's physical characteristics."
- Options for Sex are Male, Female, and Intersex. Consult ISBE for definitions of these terms. Note that 'Intersex' replaces 'Non-Binary'.

In Campus, the Gender field on the person's Identity record has been changed to Sex. The Non-Binary option is now Intersex, and any student who had the Gender field set to the Non-Binary value now has the Sex field set to the Intersex option.

Population logic for the StudentParticipation object has been updated to the following:

- Reports up to 1 StudentParticipation record per primary enrollment:
  - For the most recent (latest Start Date) locked IEP (with any Print Format) in the Zone calendar year that overlaps the primary enrollment's Start and End Date range, report an instance of StudentParticipation when the IEP Start Date <= current Date

  - (Student Info>Special Ed>Documents>Evaluation)
- When a SIF element in the object pulls from enrollment, it must pull from the most recent (latest Start Date) Primary enrollment tied to the IEP in the Zone Year.
  - When no Primary enrollment overlaps the IEP daterange in the Zone Year, then does not report a StudentParticipation object for this IEP.
  - We can recognize that an IEP is associated with the enrollment when the IEP pushes some of the field values down to the Special Ed Fields section on the enrollment.
