

Certification Category (State Edition)

Last Modified on 10/21/2024 8:20 am CDT

Tool Search: Certification Category

The Certification Category tool is used to create certification categories, define which users are allowed to review and/or certify data certification events of a specific category, and publish data certification categories to districts. Certification categories indicate what type(s) of information is being certified in a data certification event and which state and district users are allowed to view and certify an event. As data certification events are created and published to districts, state users will receive notification of published events and have the ability to certify events tied to their certification category.

This tool consolidates the functionality of the existing [Type](#) and [Type Membership](#) tools; the existing tools will remain available until the Data Certification redesign is complete.

Data Certification tools are only available in State Editions of Campus and districts connected to a State Edition of Campus.

Certification Categories		
Name	Published	Status
7-8 DROPOUT Data Checks	PUBLISHED	INACTIVE
7-8 DROPOUT to Certify	PUBLISHED	ACTIVE
9-12 DROPOUT Data Checks	PUBLISHED	ACTIVE
9-12 DROPOUT to Certify	PUBLISHED	ACTIVE
Behavior Incident List CERTIFY	UNPUBLISHED	ACTIVE
Behavior Student Data Checks	PUBLISHED	ACTIVE
COHORT Data Checks	PUBLISHED	INACTIVE
COHORT to Certify	PUBLISHED	ACTIVE
Gabe Test	PUBLISHED	ACTIVE
GRADUATE Data Checks	UNPUBLISHED	ACTIVE
GRADUATE to Certify	PUBLISHED	ACTIVE

1 - 11 of 11 items

[New](#) [Publish All](#)

Prerequisites

- Users must be assigned tool rights to the Certification Category tool.
- In order for category members to receive email notification of state-published data

certification events, [Email Messenger](#) must be enabled and configured.

- All users assigned membership to a data certification category must have a valid email address entered on the [Demographics](#) tab. This ensures email notifications about events are sent and received accordingly.
- In order for a user to view and/or certify a data certification event, they must be given [tool rights](#) to the [Event Certification](#) tool.

Tool Rights

Users must have at least **R**(ead) **W**(rite) **A**(dd) tool rights to the Certification Category tool in order to create, assign and publish certification categories.

Only an administrator should be given rights to the Certification Category tool. Because data certification events can include sensitive and role-specific information, it is critical very few users have the ability to control or modify certification categories.

Certification Category Tool Rights

Certification Categories

The following steps will walk you through the process of creating, viewing, publishing and adding members to a certification category.

In order for data certification events to be viewed and/or approved, all staff members who should have permission to view and/or approve specific events need to be established.

Create a Certification Category

Certification categories indicate what type(s) of information is being certified in a data certification event and which state and district users are allowed to view and certify an event.

1. To create a new certification category, select the **New** button.

2. The Category Membership screen displays.
3. Enter a **Name** for the category.
4. Determine whether or not the category should be active by marking the **Active** checkbox.

5. To add a member to the category, select the **Add Member button**.
6. A side panel displays that is used to search for and select a staff member to add to the category. To search for a specific staff member, enter their **name or staff state ID**.
7. Select the appropriate **staff member** to add to the category and select **Close**.
8. The new member will be displayed in the Category Membership editor.
9. Select the **Role** (either Certifier or Reviewer) and indicate if the staff member's status is **Active**.
10. Click **Save**.
11. If desired, the category can be published to districts from this screen by selecting the **Publish** icon.

View/Edit Details of a Certification Category

1. The Certification Categories editor displays a list of previously created categories. The Published column indicates if the category has been published to districts. The Status column in the indicates if the category is active or inactive. The filters at the top of the editor can be used to filter by Category Name, Publish and/or Status. Details of a category can be viewed by selecting the category from the editor.
2. To view details of a category, select a **category** from the Certification Categories editor.
3. The Category Membership editor displays staff members that have been assigned to the Certification Category.
4. A header at the top of the screen indicates if the category has been published to districts.
5. The staff member's Staff State ID, Role (either Certifier or Reviewer), and indication if the staff member is active is displayed in the Category Membership editor.
6. Users with the proper tool rights may change the Role and the Active status for individual staff members if desired. Changes must be **published** to districts in order for districts to see the updated changes.

Add a Member to a Previously Created Certification Category

1. To add a member to a previously created certification category, select the **category** from the Certification Categories editor.

2. The Category Membership editor displays staff members that have been assigned to the certification category.
3. Select the **Add Member** icon.
4. A side panel displays that is used to search for and select a staff member to add to the category. To **search** for a specific staff member, enter the name or staff state ID.
5. Select the appropriate **staff member** to add to the category and select **Close**.

Name *	Staff State ID	Role	Active
7-8 DROPOUT to Certify			<input checked="" type="checkbox"/>
Category Membership			
Test1 , Andy	N/A	Certifier Reviewer	<input checked="" type="checkbox"/>
Test2 , Gail	N/A	Certifier Reviewer	<input checked="" type="checkbox"/>
Test3 , Jennifer	N/A	Certifier Reviewer	<input checked="" type="checkbox"/>
Test4 , Kristie	N/A	Certifier Reviewer	<input type="checkbox"/>

Save Cancel Add Member Publish

- The new member is displayed in the Category Membership editor. 6.
7. Select the **Role** (either Certifier or Reviewer) and indicate if the staff member's status is **Active**.
 8. Click **Save**.
 9. Changes must be published in order for districts to see the updated changes. To publish the changes to districts, select the **Publish** icon.
 10. Once a person is a member of a data certification category and is marked Active, they will receive notifications within their Process Alerts and email indicating when the state has published data certification events tied to the certification category.

They will also be able to select the notification within the Process Inbox and be redirected to the event within the [Event Certification](#) tool where they can begin certifying event data.

Publishing Certification Categories

Once certification categories have been created, they need to be published to districts so that district members can be assigned to the categories.

Certification categories can be published individually or all at once. Once certification categories are published, districts can then begin to assign users to specific categories. When data certification events are published to districts, district users assigned to a category for an event are able to begin certifying and submitting event data back to the state.

To publish individual certification categories:

Not Published

Name * Active

7-8 DROPOUT Data Checks

Category Membership

Test1, Andy	Staff State ID N/A	Role Certifier Reviewer	Active <input checked="" type="checkbox"/>
Test2, Gail	Staff State ID N/A	Role Certifier Reviewer	Active <input checked="" type="checkbox"/>
Test3, Jennifer	Staff State ID N/A	Role Certifier Reviewer	Active <input checked="" type="checkbox"/>
Test4, Kristie			

1. Select the category from the Certification Categories editor.
2. Select the **Publish** icon.

To publish all certification categories:

Certification Categories

Name	Published	Status
7-8 DROPOUT Data Checks	PUBLISHED	INACTIVE
7-8 DROPOUT to Certify	PUBLISHED	ACTIVE
9-12 DROPOUT Data Checks	PUBLISHED	ACTIVE
9-12 DROPOUT to Certify	PUBLISHED	ACTIVE
Behavior Incident List CERTIFY	UNPUBLISHED	ACTIVE
Behavior Student Data Checks	PUBLISHED	ACTIVE
COHORT Data Checks	PUBLISHED	INACTIVE
COHORT to Certify	PUBLISHED	ACTIVE
Gabe Test	PUBLISHED	ACTIVE
GRADUATE Data Checks	UNPUBLISHED	ACTIVE
GRADUATE to Certify	PUBLISHED	ACTIVE

1. Select the **Publish All** icon on the Certification Categories screen.

Deactivate Certification Category Members

Members who should no longer have the ability to view and/or certify data certification events for

a specific category should be deactivated.

Name *	Active
7-8 DROPOUT to Certify	<input checked="" type="checkbox"/>
Category Membership	
Test1 , Andy	
Staff State ID N/A	Role Certifier Reviewer Active <input checked="" type="checkbox"/>
Test2 , Gail	
Staff State ID N/A	Role Certifier Reviewer Active <input checked="" type="checkbox"/>
Test3 , Jennifer	
Staff State ID N/A	Role Certifier Reviewer Active <input checked="" type="checkbox"/>
Test4 , Kristie	
Staff State ID N/A	Role Certifier Reviewer Active <input type="checkbox"/>

Save Cancel Add Member Publish

1. To deactivate a member, unmark the **Active** checkbox for the staff member within the Certification Membership editor.
2. Click **Save**.
3. The user will now display as not being active and will no longer receive notifications or be able to view/certify data certification events of this certification category.
4. Changes must be published to districts in order for users to see the updated changes. To publish the changes to districts, select the **Publish** icon.
