MSDS State Extracts Tool

MSDS Extracts

Extract	Description
<u>General Collection</u>	The MSDS General Collection Extract is used to gather student data largely from Enrollments, IEPs, and Behavior meant to represent pupil membership counts and participation data.
<u>Early Childhood</u>	The MSDS Early Childhood Extract gathers information about students receiving services through an entity or program funded by the state of Michigan, specifically reporting enrollments and exits for individual programs.
<u>Early Roster</u>	The MSDS Early Roster Extract gathers projected student enrollment data for the upcoming school year. It will not impact accountability and is required to create a Direct Certification report.
<u>Request for UIC</u>	The MSDS Request for UIC allows districts to obtain or validate Unique Identification Codes (State IDs) for their students.
<u>Student Record Maintenance</u>	The MSDS Student Record Maintenance Extract examines student data for changes and general updates throughout the year, particularly for managing graduate data.
<u>Teacher Student Data Link</u>	The Teacher Student Data Link reports the link between students and the teachers who instruct them.
<u>Nonpublic School Student Roster</u>	The Nonpublic School Student Roster extract reports data for actively enrolled students.
