Based on the selected assessment type, the state creates a report showing all assessments taken by a student for students marked as enrolled on the third Wednesday of September or last Wednesday in January (Count dates in MOSIS Student Core - October and February report submissions). Districts can download this tab delimited file, made available so it can be merged into local systems for analysis.

If a student has not participated, districts have three options:

1. Enroll the student in the spring administration of the assessment.
2. Report to the DOE those students who had prior accountability fulfillment.
3. Not respond and accept the Level Not Determined (LND) for the student. (No points awarded if LND is $\geq 5\%$.)

Report Logic for the Subject Field

There are two possible ways to set up data to populate the Subject field.

- Option 1: Map the state codes to the selections on the Subject dropdown list on the [Assessment Test Detail](#).
- Option 2: Return the user-entered state code from the Dictionary Detail.

Option 1

Select the appropriate subject for each test, as defined in the table below.

Test Detail Subject Entry	State Code Returned in Extract
Comm Arts	ENGL12
Math	ALGEB1
Science	BIOLO1
SocialStud	AMGOV1

Option 2

Enter the State Code on the Dictionary item for the Test Type in the [Custom Attribute Dictionary](#).

OR

When the MAP-A checkbox on the student's enrollment is marked, a record reports for each of the four state assessment subject codes (ENGLI2, ALGEB1, BIOL01, AMGOV1). Only one record reports per student per state subject code. When more than one assessment record with an EOC exception code exists for a student for one of the four required EOCs, the record with the most recent date on the Test Score Detail reports. When the Assessment Type is ACT, all records report as blank.
