The cornerstone for compliance with federal law, as delineated in the No Child Left Behind (NCLB) Act of 2001, is increased accountability for student achievement. Schools must be able to show adequate yearly progress (AYP) in academic achievement and increases in graduation rates. California has adopted rigorous academic standards and developed assessments to track whether students are achieving the standards set for them. To fully comply with federal accountability requirements, however, California must be able to track individual student enrollment history and achievement data over time.

The student-level, longitudinal data in CALPADS facilitates program evaluation, assessment of student achievement over time, the calculation of more accurate dropout and graduation rates, the efficient creation of reports to meet state and federal reporting requirements, and the ability to create ad hoc reports and respond to questions. CALPADS provides local educational agencies (LEAs) access to longitudinal data and reports on their own students, and immediate access to information on new students enabling them to place students appropriately and to determine whether any assessments are necessary.

Non-Binary Gender Reporting

Schools can assign students a gender of M: Male, F: Female, X: Non-binary. This is done on the [Identities](#) tool and/or the [Demographics](#) tool.

CALPADS Extracts use the Legal Gender field included in the Protected Identity Information to report student and staff identity information.

To record a gender of X: Non-binary, on the Identities tool:

1. Assign the **Gender of X: Non-Binary** in the standard identify fields.
2. Assign the **Protected Identity Information Legal Gender** of M: Male, F: Female, or X: Non-binary.
3. Save the record when finished.
