Tool Search: MT Extracts

The Montana Extracts allows District Edition users to extract the data and upload it into Montana Edition or Montana State Edition.

Index **Search** **MT State Extracts**

This tool will extract data to complete several formats of the MT State-defined reporting formats. Choose the State Format to get the file in the state defined tab separated file format, otherwise choose one of the testing/debugging formats.

Montana State Extracts

Extract Options

Select the appropriate extract to generate from the **Extract Type** dropdown list. A List of available extracts is below. Users should also select the desired **Format** in which to generate the extract. Each extract can be generated in one of four formats:

- HTML
- XML
- CSV
- State Format (TSV)

When uploading extract information to the state, use the State Format (TSV) option. Other options are available for testing and data review prior to state submission.

Calendar Selection

At least one calendar needs to be selected when generating an extract. Multiple calendars can be selected at one time by using the CTRL-click or SHIFT-click options. Calendars are organized by Active Year, by School or by Year.
