Assessment Student Registration File Editor

Report Logic

One record per student per school reports.

Students must have an active primary enrollment at some point during the reporting period.

- If more than one enrollment record exists, the most recent record is used.

Students are excluded from reporting if:

- Student is marked as No Show
- Student is marked as State Exclude
- Student is enrolled in a Calendar marked as State Exclude
- Student is enrolled in a school marked as State Exclude

Report Editor Fields

Field	Description
Start Date End Date	The first and last date used to determine which student records to include in the extract.
Format	This report can be generated in CSV (State Format) or HTML.
Ad Hoc Filter	Select an Ad Hoc filter to limit report results to those that meet filter requirements.
Select Calendar(s)	Select the calendar(s) to include on the report. The calendar selected in the Campus toolbar is automatically selected. The report can be generated for one school at a time, or a set of schools at a time (all elementary schools, for example). Calendars can be listed by the Active Year, School Name, or Year. At least one calendar needs to be selected.
Report Generation	The report can be marked to generate immediately using the Generate Extract button or can be marked to generate at a later time using the Submit to Batch button. See the Batch Queue article for additional guidance.

Generate the Report

1. Enter the desired **Start Date** and **End Date** the report should use to filter data.
2. Select a **Format** to generate the report in. Options include CSV and HTML.
3. Select an **Ad Hoc Filter** to further narrow down the reported results.
4. Select the **Calendar(s)** to include in the report.
5. Select one of the report generation options: **Generate Extract** or **Submit to Batch**.
