

SIF Data Tool (2.*)

Last Modified on 06/10/2025 9:30 am CDT

[Prerequisites](#) | [View XML of a SIF Object or Record](#)

Tool Search: SIF Data Tool

The SIF Data Tool allows administrators to view the XML output of specific SIF objects or records, depending on the Zone and Agent selected. This tool is useful for reviewing SIF object data and troubleshooting specific SIF records that maybe be sending erroneous data or causing errors on the receiving end.

This tool is only available in SIF-enabled instances of Infinite Campus.

See the [SIF Data Tool and Record Deleter Tool Rights](#) article for information about related tool rights.

2.* SIF Data Tool ☆
System Settings > Data Interchange Administration > 2.* SIF Data Tool

Please note that some SIF Objects aren't available yet in this tool.

Instructions

This tool displays XML records that are currently in Campus for the selected SIF Object and configuration.

Note:
SIF Person Data Tool only displays person related objects and the SIF Data Tool displays both person and non-person related objects.

View XML of a SIF Object or Record

To generate a view of the XML for a specific SIF object or record:

1. Select the **School Year**. This defaults to the latest available year.
2. Select the **Zone**. Only zones configured for the selected school year are available for selection.
3. Select an **Agent**.
4. Select the **SIF Object**. The list of available objects depends on the zone and agent selected as well as how [Data Access Rights](#) are configured in your instance of Infinite Campus.
5. If a person-related SIF Object is selected, you must enter the **PersonID** of the person you wish to view or the **RefId** of the record you wish to view.
6. If a non-person related SIF Object is selected, you must enter the **RefId** of the record you wish to view.
7. Once the RefId or PersonID (depending on object) is entered, click the **Generate SIF Data** button. The XML for the object/record will appear below.
