[View the Student's SIF Object Data](#)

Tool Search: SIF Person Data

The SIF Person Data tool allows you to view the XML output of a student for specific SIF objects depending on the Zone and Agent selected. This tool is useful for reviewing student SIF object data and troubleshooting specific SIF records that maybe be sending erroneous data or causing errors on the receiving end.

This tool is only available for states on SIF version 2.7.

The screenshot shows the SIF Person Data tool interface. At the top, there's a header with a user profile icon, the title "SIF Person Data" with a star, and a breadcrumb trail "Census > People > SIF Person Data". Below the header, there's a section for "Student #" and "DOB:" with input fields. A "Tech: Sharing Disabled" message is visible. A "Related Tools" link is on the right. The main content area has two tabs: "SIF Unity Object Viewer" and "SIF 2.* Object Viewer". The "SIF 2.* Object Viewer" tab is active, showing an "Instructions" section with text about XML records and a "Note" about person-related objects. Below this is an "Options" section with three dropdown menus: "Select a School Year *" (showing "2024-2025"), "Select a Zone *" (empty), and "Select an Agent *" (empty). At the bottom, there's a blue button labeled "Generate SIF Data".

SIF Persn Data

- Read** - Access and generate SIF data.
- Write** - Provides no function for this tool
- Add** - Provides no function for this tool
- Delete** - Provides no function for this tool

For more information about Tool Rights and how they function, see [this Tool Rights article](#).

View the Student's SIF Object Data

To generate a view of the XML for a specific SIF object:

1. Select the **School Year**. This defaults to the latest available year.
2. Select the **Zone**. Only zones configured for the selected school year are available for selection.
3. Select an **Agent**.
4. Select the **SIF Object**. The list of available objects depends on the zone and agent selected as well as how [Data Access Rights](#) are configured in your instance of Infinite Campus. Only person-related objects are available. For non-person related objects, use the [SIF Data Tool](#).
5. Click the **Generate SIF Data** button. The XML for the object will appear below.
