Tool Search: Positions and Exits

The Positions and Exits Collection collects data regarding staff shortages by position and geographic region, measures the growth and decline of required staffing levels, and evaluates the reasons licensed personnel leave the field.

Positions and Exits Collection ☆

Positions and Exits Collection

This tool will extract data to complete VA Positions and Exits Collection.

Report Logic

Extract Type	Logic
Fall	When selected, the A, B, and D Records options display.
EOY	When selected, the A, B, and C Records options display.

Report Population

- Staff report on the collection when their District Assignment's Employment Assignment Information's Title selection has Standard Code populated in the attribute dictionary.
- A staff record is generated for each unique Title Standard Code, Adult Ed, Special Ed and EL combination. Up to 4 record can report for each position code combination.
- When the Extract Type = EOY, staff only report when the License Number on their District Employment is populated.
- On the Fall Extract Type, staff do not report when their District Assignment End Date is before the Effective Date of report generation.

B Record Report Population

- Staff report on the collection when their District Assignment Title is populated, and the District Employment End Date is blank on or before 6/30 of the current school year AND on or after 7/1 of the current school year start date.
- A record is generated for each unique Title Standard Code with the Adult Ed Only, OR English Learning Only, OR Special Ed checkbox marked on the staff member's District Assignment. A staff member with all three of these checkboxes marked reports as three separate records. An additional record may generate when the position has none of the above checkboxes marked.
- Staff report on the collection when their District Assignment standard code is 1-138.
- For each record reported, the following logic is used to determine the Level Code (SCH or DIV):
 - When all staff in a record have the District Staff checkbox marked or have multiple district assignments, the Level Code is DIV. For the staff to be considered DIV, their District Assignment End Date must be null OR on or before the Effective Date AND on or after 7/1 of the calendar's Start Year. A staff member can have two different job titles and still be considered DIV.
 - When all staff in a record have the District Staff checkbox marked and only one district assignment, the Level Code is SCH.
 - When some staff are DIV and some are SCH, two records are created. One for the DIV Level Code staff and one for the SCH Level Code staff.

- Does not report when the Employment End Date is before the School Year Start Date.
- Staff with a Title Standard Code of 89: Bus Driver report on the D Record.
- EOY reporting period reports licensed staff only.

C Record Report Population

- Staff report on the collection when their District Assignment Title is populated, and the District Employment End Date is on or before the Effective Date of the report generation date AND on or after the School Year Start Date.
- Staff report on the collection when their District Assignment standard code is 1-138.
- Staff with a Title Standard Code of 89: Bus Driver report on the D Record.
- Does not report staff where the District Assignment End Date is before the School Year (7/1) Start Date.
- EOY reporting period reports licensed staff only.
 - Staff with position codes 93, 101, 114-135, 138, or 139, do NOT report.

D Record Report Population

- Staff report on the collection when their District Assignment Title Standard Code is 89: Bus Driver or 139: Car Driver, and the District Employment End Date is blank on or before the Effective Date of the report generation date AND on or after the School Year Start Date.
- Staff with a future District Assignment report and are considered DIV Level Code (Start Date is not considered in the report criteria).
- For each record reported, the following logic is used to determine the Level Code (SCH or DIV):
 - When all staff in a record have the District Staff checkbox marked or have multiple district assignments, the Level Code is DIV. For the staff to be considered DIV, their District Assignment End Date must be null OR on or before the Effective Date AND on or after 7/1 of the calendar's Start Year. A staff member can have two different job titles and still be considered DIV.
 - When all staff in a record have the District Staff checkbox marked and only one district assignment, the Level Code is SCH.
 - When some staff are DIV and some are SCH, two records are created. One for the DIV Level Code staff and one for the SCH Level Code staff.

Report Editor Fields

Field	Description
Effective Date	The date for which the information in the report is active or valid.
Extract Type	The extract type. Options include: Fall or EOY
Records Checkboxes	Indicates which type of record reports on the collection. Options include: <ul style="list-style-type: none"> • A Records - Header • B Records - Positions, Unfilled & Exit • C Records - Reasons for Exits • D Records - Bus Drivers

Field	Description
-------	-------------

Format	The format in which the report generates. Options are CSV, Tab Delimited, and HTML.
Calendar(s)	The calendar(s) from which data is pulled.
Generate Extract Submit to Batch	Users have the option of submitting the report to the batch queue by clicking Submit to Batch instead of Generate Extract. This process allows larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article.

Generate the Collection

1. Enter an **Effective Date**.
2. Select an **Extract Type** from the dropdown, either Fall or EOY.
3. Select which records to include in the collection by marking or unmarking the **Records** checkboxes.
4. Select the **Format** for report generation.
5. Select which **Calendar(s)** to include in the report.
6. Click **Generate Extract** or **Submit to Batch**.
