This entity is the final record of a student's performance in their courses at the end of a semester or school year.

- Students with hand entered Course Transcript records may not report if there is no section to tie back to for the term.
- The Sessions, Course Offerings, Sections, and Locations resources all need to be present for the Course Transcripts resource to process and send.

## Object Triggering Logic

This table describes logic for triggering syncing of this object.

Action	Trigger												
Post	<p>When transcript records are posted for a student (either through the system or manual entry) and they have a valid Student School Association for the configured year.</p> <p>OR</p> <p>When a resync is completed for the school the student is enrolled, all eligible transcript records for all years will send for the Student.</p> <ul style="list-style-type: none"> <li>• Do not send a record if the course is marked as inactive.</li> <li>• The course must exist in the ODS for the Course Reference to send as part of this resource.</li> </ul> <p>Use the following logic to determine which Course Reference to send:</p> <ul style="list-style-type: none"> <li>◦ If the School Number and Course Number on the transcript record are in the configured year ODS, report the Course reference with those numbers.</li> <li>◦ if School Number and Course Number on the transcript record are in the ODS for the configured year but not the school where the student is enrolled, report the course reference with the School and Course Number that matches the School &amp; Course in the ODS.</li> <li>◦ If School Number on the transcript record is in the ODS for the configured year but not the school where the student is enrolled but the Course number matches the school they are enrolled, the course reference will report with the School Number where the student is enrolled.</li> <li>◦ If the School Number on the transcript record is not in the ODS and the course number matches the school where the student is enrolled, the course reference will report where the student is enrolled.</li> <li>◦ If the School Number on the transcript is not in the ODS but the Course Number matches a school where the student is not enrolled, the course reference will report with the school where the course match is found. If there is more than 1 school with that course number, pick the school with the highest schoolID.</li> <li>◦ If the School Number on the transcript is not in the ODS and the course number does not match any course in the district, a record will not send and will not trigger an error.</li> <li>• Do not send a record if the transcript's score is null.</li> <li>• Manual transcript entries require the following to POST:</li> </ul> <table border="1"> <tr> <td>School Year</td><td>State Code</td></tr> <tr> <td>School Number</td><td>Score</td></tr> <tr> <td>District Number</td><td>Unweighted GPA Value</td></tr> <tr> <td>Grade</td><td>Credits Earned</td></tr> <tr> <td>Course Number</td><td>Credits Attempted</td></tr> <tr> <td>Course Name</td><td>Ed-Fi Term Type</td></tr> </table>	School Year	State Code	School Number	Score	District Number	Unweighted GPA Value	Grade	Credits Earned	Course Number	Credits Attempted	Course Name	Ed-Fi Term Type
School Year	State Code												
School Number	Score												
District Number	Unweighted GPA Value												
Grade	Credits Earned												
Course Number	Credits Attempted												
Course Name	Ed-Fi Term Type												
Post/Delete	When any part of the Natural Key is changed.												
Put	When fields that are not part of the natural key are changed.												
Delete	When a transcript record is deleted for a student.												
Delete	<p>All Transcript records will only delete when a student has only 1 Student School Association record for a specific Year and that record is deleted.</p> <p>(Note: If a new Student School Association record is created, existing records will not re-post, a resync must be completed to resend the data.)</p>												

## School Exclude, Calendar Exclude, Resource Toggle and Resync Logic

This table describes the School Exclude, Calendar Exclude, Resource Toggle and Resync logic of this object.

Action	Trigger
None	If a resource is toggled to 'OFF' after data has sent, all sent data will remain in the ODS but no new data will send.
Resync	If a record is in the Ed-Fi Identity Mapping table and not in the ODS, it will be deleted from the Ed-Fi Identity Mapping table.
Resync	If a record is in the ODS and it does not have a matching record in Campus or the Ed-Fi Identity Mapping table, it will be deleted from the ODS.
Resync	If a mapping is changed in Resource Preferences, a resync will need to be done to reflect the changes.

## Natural Key Changes, Cascading Updates, and Deletes Logic

This table describes the Natural Key Changes/Cascading Updates and Deletes logic of this object.

Action	Trigger
Post/Delete	Natural Key changes: <ul style="list-style-type: none"> <li>If the Natural Key changes from the Course Reference or Student Academic Reference, the cascading delete/post logic from those resources will trigger updates to the Course Transcripts.</li> <li>Records will delete/post if the Credits Earned or Credits Attempted are changed on a student's transcript record.</li> </ul>

## Scope Year Logic

This table describes scope year logic of this object.

Logic
Transcript records will send to each scope year where the student has a Student School Association, regardless of the Transcript School Year. <ul style="list-style-type: none"> <li>Data will only send for years that have valid configuration.</li> <li>A resync must be completed at the beginning of each year so that all years transcript records will be loaded in the ODS.</li> </ul>
