

Indiana Ed-Fi Data v2.4/3.1 - Student Academic Records

Last Modified on 10/21/2024 8:22 am CDT

This educational entity represents the cumulative record of academic achievement for a student.

The Sessions, Course Offerings, and Sections resources all need to be present for the Student Academic Records resource to process and send.

Object Triggering Logic

This table describes logic for triggering syncing of this object.

Action	Trigger
Post	<p>Report a Student Academic Record instance for each school year in which the student has a transcript record and they have a Student School Association record for the configured year.</p> <p>OR</p> <p>When a grade is posted to a grading task that is marked as State Reported and the student is in grades K-8.</p> <p>OR</p> <p>When a student's enrollment has a Local Start Status mapped to the State Start Status of '999: Past School Year Graduate' AND Exclude from State Reporting is checked on their enrollment.</p> <p>When Term Type cannot be determined on a Transcript record, provide an error with the following message, "Could not identify valid term type for transcript record".</p> <p>Do not send a record if the transcript's score is blank.</p>
Post/Put	<p>When a student is given a Diploma Date and Diploma Type.</p> <ul style="list-style-type: none"> The diploma array will null when a student's graduation record is deleted. Only post for the records in the Student Academic Record (SAR) and configured year the Diploma Date is associated. If the student already has SAR records from posted Transcript records, update existing records with the Diploma information. <ul style="list-style-type: none"> If all of the student's transcript records are deleted, a new SAR will post from the Diploma Record (Unless reporting from an enrollment that has 'Code 999' as the start status and exclude from state reporting checked). If the student does not have any SAR records from posted Transcript records, create one SAR record to report the Diploma information. <ul style="list-style-type: none"> If the Term Descriptor cannot be determined, provide an error with the following message, "Could not identify a valid term type for diploma record". If the Diploma date and/or Diploma Type fields are made NULL, the SAR record will delete.
Delete	<p>If records are posted from course transcript records and no Diploma information exists, all Student Academic Records will only delete when a student has only one Student School Association record for a specific year and all Student School Association records are deleted.</p>
Delete	<p>If a Graduation record is deleted and the student does not have any transcript records that would create a Student Academic Record.</p>
Delete	<p>If the Diploma Date is changed to no longer occur in the configured year and the student does not have any transcript records that would create a Student Academic Record.</p>

School Exclude, Calendar Exclude, Resource Toggle and Resync Logic

This table describes the School Exclude, Calendar Exclude, Resource Toggle and Resync logic of this object.

Action	Trigger
None	<p>If a resource is toggled to 'OFF' after data has sent, all sent data will remain in the ODS but no new data will send.</p>
Delete	<p>If a resource is toggled to 'OFF' after data has sent and an action is performed that would trigger a delete, that data will remain in the ODS until a resync is done.</p>
Resync	<p>If a record is in the Ed-Fi Identity Mapping table and not in the ODS, it will be deleted from the Ed-Fi Identity Mapping table.</p>
Resync	<p>If a record is in the ODS and it does not have a matching record in Campus or the Ed-Fi Identity Mapping table, it will be deleted from the ODS.</p>

Action	Trigger
Resync	If a mapping is changed in Resource Preferences, a resync will need to be done to reflect the changes.

Natural Key Changes, Cascading Updates, and Deletes Logic

This table describes the Natural Key Changes/Cascading Updates and Deletes logic of this object.

Action	Trigger
Delete/Post	<p>If any part of the Natural Key Changes</p> <ul style="list-style-type: none"> If the District Number changes all data will remain under the old number. The delete tool would need to be used to remove all old data. If an Ed-Fi ID changes, this will happen with the cascading deletes from the Ed-Fi ID Change trigger. If the End Year the transcript record or diploma record is aligned to changes. If the Term Descriptor is changed in Sessions Resource Preferences or if the Transcript Term Override is changed in Student Academic Record Resource Preferences. If the Diploma Date changes. If the natural key changes all dependent resources will delete/post.
Dependent Resources	Course Transcripts

Scope Year Logic

This table describes scope year logic of this object.

Logic
Records will send to each scope year in which the Course Transcript record is posted.
<p>Records will only post to the SAR records for the year the diploma date occurs in but SAR records will post to all scoped years.</p> <ul style="list-style-type: none"> The Diploma Date must be on or after the school year's start date and on or before the school year's end date defined in the School Years editor. If blank, the default start date of 7/1/xxxx and end date of 6/30/xxxx are used.
Data will only send for years that have a valid configuration.
