Technical Information

See the Technical Information - Release Pack Campus.2215 (https://kb.infinitecampus.com/help/technical-information-release-pack-campus2215) article for a list of schema changes in this release.

Activity Registration

Activity Registration Maintenance (SIS-154213)

- The Ad hoc filter could be removed from approved activities on the Upcoming tab. This issue was corrected.
- Students with multiple enrollments that did not have overlapping dates in the same school and year were unable to post to course section rosters. This issue was corrected and now students can be posted to a roster in their current school unless the correct enrollment can't be identified due to other concurrent enrollments.

Behavior

Behavior Detail Report (SIS-151573) **[Enhancement]**

The Behavior Detail Report has been modified for a font spacing issue to correct the overlapping of letters.

Article(s): Student Behavior

Path: Student Information > General > Behavior > Print Incident, Print Current Calendar, Print All Years

Behavior Updates for Gender Identity (SIS-153152) **[Enhancement]**

The Behavior Preference for "Display Gender option on reports setup" has been renamed to "Display Gender Identity Option on reports setup". The logic of the preference has not changed - when set to Yes, the student's Gender Identity prints on the Behavior Event, Behavior Resolution and Behavior Removal reports.

The Gender field on the Behavior Event, Behavior Resolution and Behavior Removal reports is now Gender Identity.

Article(s): Preferences (Behavior); Behavior Event Report; Behavior Resolution Report; Behavior Removal Report

Path: Behavior > Admin > Preferences; Behavior > Report > Event, Resolution, Removal

Behavior Event Type Character Length (SIS-154455)

The Behavior Event Type Code field now allows up to 6 digits (previously, 5 digits were allowed).

Batch Edit Tools - Portal Display Options (SIS-153598) **[Enhancement]**

Three tools to make batch edits have been added to the portal Display Options:

- Copy Templates: allows users to copy a template from the source school to the destination school(s). The copied template can either be a new template in the destination school(s) or overwrite an existing template.
- Edit Templates: allows users to update display options templates for multiple schools en masse, such as turning on the Grades tool for all high schools.
- Edit Calendar and Term Settings: allows users to update Calendar and Term Settings for multiple schools en masse, such as switching schools to their grading period display options templates.

Academic Plans for Middle School Students (SIS-154296)

Previously, if a middle school student was enrolled in a high school in the next school year and had an Academic Plan in that year, they could not view the Plan for their high school enrollment if the Academic Plan preference was not enabled for their middle school enrollment. This has been corrected.

Article(s):Academic Plans (Campus Student)

Path: Campus Student > Academic Plans

Campus Student/Parent - Grades Tab (SIS-154789)

Previously, the Grades tool in Campus Student and Campus Parent was limited to 500 assignments per section. This limit has been removed.

Data Utilities

Data Extract Utility SFTP Key Exchange Manager Added (SIS-141352) **[Enhancement]**

The Data Extract Utility SFTP Key Exchange Manager is now available. This tool allows administrators to upload their SFTP Server Public Key, download the client SFTP Public Key, and refresh the keypair between Infinite Campus and their server(s), providing a more secure connection between Infinite Campus and third-party systems. This tool also allows users delete and replace expired keys.

Once a key(s) is configured, SFTP configurations within the Data Extract Utility have a new SFTP Key Exchange checkbox (which you would mark if you are using the key exchange) and an SFTP Key Exchange Configuration dropdown menu where you select the key to be used.

Article(s): SFTP Key Exchange Configuration

Path: System Administration > Data Utilities > Data Extract Utility SFTP Key Exchange Configuration

SFTP Protocol Added as an Option for Data Import Tool (SIS-151616) **[Enhancement]**

SFTP protocol has been added as an available option when setting up a data sync within the Data Import tool. Also, the FTPS connection to ftp.infinitecampus.com has been corrected.

Article(s): Data Import Wizard

Path: System Administration > Data Utilities > Data Import

Database

Script from Previous Case Causing Deployment Performance Issues (SIS-154519)

A one-off script from a previously released case was causing performance issues when attempting to update and deploy Campus.2211.1. This issue was corrected.

Enrollments

Enrollment Status Report - Gender Identity, Add Date/Drop Date (SIS-153151) **[Enhancement]**

The Enrollment Status Report now includes a Gender Identity checkbox. When marked, a student's gender is included in the generated print of the report for all report formats; when not marked, a student's gender is NOT included in the generated print of the report.

Also, the Add Date and the Drop Date columns on the print format have been renamed to Start Date and End Date.

Path: Federal Reporting > Civil Rights Data Collection (CRDC) > Maintain Survey Results

Fees

Fixed Household Maximums in Campus Parent (SIS-154237)

If the Student Fee Maximum was set to 0 (or left undefined) and the Household Fee Maximum was given a value, the Fees tool was not displaying the correct Household Maximum adjustments in Campus Parent. This issue was corrected.

Article(s): Fee Maximums

Path: Fees > Fee Maximums

Fee Tool Not Displaying (SIS-154246)

The Fees tool was not displaying when the payment had a creator ID set to zero in the Campus database. The Fees tool was also not displaying when payment information in the Campus database referenced a person that did not exist. These issues were corrected.

Article(s): Fees

Path: Fees

Corrections for Fee Maximums (SIS-154265)

The following issues with Fee Maximums were corrected.

- An error message was displaying on the Fees tool when users tried to pay a fee that was exempt from Fee Maximums and the fee was the only fee assigned to the student.
- Students were not included on the Fee Receivable Summary Report when the only fees assigned to them were marked as Exempt from Fee Maximums.
- Fees marked as Exempt from Fee Maximums were not displaying in Campus Parent or Campus Student.

Article(s): Fee Maximums

Path: Fees > Fee Maximums

Voiding a Multiple Fee Payment Fixed (SIS-154336)

When a single payment paid multiple fees then the payment was made void, Campus was creating multiple identical deposits. For example, a $15 payment that paid a $10 fee and a $5 fee was creating two $10 deposits and two $5 deposits when the payment was voided and the "Create Deposit" option was selected at the time of the void. This issue was corrected.

Fee Billing Batch Report Performance Update and Household Fee Max Corrections (SIS-154340)

The Fee Billing Batch Report, also called the Batch Fee Billing Statement report, was including the household fee maximum adjustment amount in the student fee maximum amount. The household fee maximum adjustment amount was also listed separately which caused the balance to display incorrectly. This issue was corrected. The Fee Billing Batch Report was also optimized for improved performance.

The household fee maximum adjustment was displaying after the household maximum was paid. It was also being used in the balance calculation which caused the balance to be negative. This issue was corrected.

Article(s): Fee Billing Batch Report

Path: Fees > Reports > Fee Billing Batch

Corrections Made to the Fee Audit Report and the Fee Receivable Summary Report (SIS-154577)

The Fee Audit Report was displaying balances incorrectly and the Fee Receivable Summary Report was showing Fee Maximum adjustments when there were none and not showing the Fee Maximum adjustment when there was an adjustment. These issues were corrected.

Daily Deposit Request Report Updates (SIS-153472) **[Enhancement]**

The following fixes and improvements were made to the Daily Deposit Request Report.

- The page orientation was changed from Portrait to Landscape.
- A Deposit Request Summary was added as the first page and provides the bank account, the Deposit Request Date and the amount of the deposit.
- The Payment Method column was removed and the following columns were added: Recipient and Payment Reference Number. The Payment Reference Number was added to help users manually calculate the payment from which the fee(s) originated and verify the fee allocation.
- The columns on the report were rearranged to the following order: Fund ID, Fund Description, Payer Name, Recipient, Payment Reference Number and Amount (sorted in ascending order from left to right).
- The Fund ID column was added to the Fund Totals section and will display in ascending order. Previously, the Fund Description column was displaying the Fund ID. This issue was corrected.

- The Transaction Fee column was renamed "Transaction Flat Fee."
- The Transaction Flat Fee calculation was updated. Previously, the report was splitting the transaction fees evenly between the funds. Now, the column reports the actual fund allocation from the database for the Transaction Fees within the report.
- The Merchant Flat Fee column was renamed "Merchant Fees."
- The calculation for the Merchant Fees column was updated to pull the actual fund allocation from the database for the merchant fees within the report. This column now shows 5 decimal places to more accurately reflect the amount from the database. Previously, the report was using the gross amount from the report to calculate the Merchant Fees.
- The Adjust In Total and Adjust Out Total now display below the Merchant Fee column.

Payments Reporter Fix

Previously, when the Payments Reporter was exported via PDF, the export was adding one day to the End Date entered. This issue was corrected.

POS 2.0 - Terminal Updates (SIS-153865)

Manual Update Required

The POS auto updater stopped working with POS 2.7.0. This issue was corrected; however, customers on POS 2.7.0 or 2.8.0 should manually update POS 2.0 for every user on each terminal after updating to Campus.2215. Customers on POS 2.7.1 and POS 2.8.1 do NOT need to complete the manual update. If you have multiple terminals to update, consider saving the ""Campus Point of Sale Setup 2.9.2.exe"" file to a jump drive for ease of use. Once you complete the manual update process, POS 2.0 will automatically update with each Campus release going forward and you will not be required to manually update the terminal again. See the Terminal Installation and Configuration (POS 2.0) article for complete information on installing POS 2.0.

MMF Cash Drawers Renamed

The MMF Cash Drawer names on the POS Terminal Admin screen were renamed **MMF Adv.** and **MMF Value** to accurately reflect the type of MMF cash drawer being used.

POS 2.0 - Terminal Authorization (SIS-154732) **[Enhancement]**

To prevent users from using the URL from another district to load district data on the terminal, a new ""District Secret"" was added. During the initial setup of a terminal, districts must copy the District Secret from Point of Sale > Administration > Terminals > Get District Secret and paste it into the District Secret field on the POS Terminal Admin screen's Configurations section. This authorizes the terminal to pull data from Campus.

If your district is currently using POS 2.0, you do not need to enter the District Secret immediately. However, you will need to enter the District Secret the next time you change the terminal configuration in the POS Terminal Admin.

New School Store Summary Report and Notification (SIS-152921) **[Enhancement]**

The School Store Summary Report is now available for districts to review the items that were purchased on a specific day. Districts can also set up a School Store Notification for the new School Store Summary Report. Currently, the notification is a daily email that includes a PDF version of the report. The process for sending the daily email starts at 12:00 AM local time every day and reports all purchases from the previous day. For the daily email to be sent, the required fields must be set up in the Email Settings tool and the Allow Email Attachments checkbox must be marked. To receive a notification, recipients must be assigned tool rights to the School Store Summary Report, have the Staff checkbox marked and have an Email address entered in the Messenger Preferences Contact Reasons of the Demographics tool.

SSO Service Provider Configuration Tool Updated to Allow for Multiple Concurrent IDPs (SIS-146779) **[Enhancement]**

The SSO Service Provider Configuration tool has been updated to now allow for multiple, concurrent IDPs/configurations.

This is especially useful for districts with a need to enable more than one SSO configuration, such as those where one IDP is used for staff logins and another IDP is used for student and parent logins. When two or more SSO configurations are enabled, the SSO Login button on the Infinite Campus login screen changes, allowing the person to select which IDP to use before logging in.

To lessen confusion, the following new settings were added to the SSO Service Provider Configuration tool to allow you to hide specific SSO configurations from specific login screens:

- Turn off this SSO configuration for the Parent Portal
- Turn off this SSO configuration for the Student Portal
- Turn off this SSO configuration for the Main Login page

For example, if a specific SSO configuration should only be used by staff members, marking the ‘Turn off this SSO configuration for the Parent Portal’ and ‘Turn off this SSO configuration for the Student Portal’ checkboxes would ensure parents and students would not see this option on their respective login screens.

Utah – Attendance Type Added to Course Info and SIF EnrollmentValidationType Extended Element Added (SIS-153343)

A new field called 'Attendance Type' has been added to the Course Info editor. This field indicates if the student has an attendance validated or learner validated enrollment status. This field has also been added to Ad hoc reporting (Course.wblCourseType).

The SIF StudentSchoolEnrollment/EnrollmentValidationType extended element has been added. This element reports based on the following logic:

- For each course the student has been enrolled in the enrollment calendar on and between the enrollment Start Date and enrollment End Date (or calendar End Date when enrollment End Date is null), report based on the Code selected in the Attendance Type field:
  - When all courses the student has been enrolled during the enrollment have Attendance Type = null, report this element as null: <EnrollmentValidationType/>
  - When all courses the student has been enrolled during the enrollment have Attendance Type = A: 100% Attendance Validated, OR A and null, report "A".
  - When all courses the student has been enrolled during the enrollment have Attendance Type = L: 100% Learner Validated, OR L and null, report "L".
  - When all courses the student has been enrolled during the enrollment have Attendance Type = S: 100% Somewhere Else, OR S and null, report "S".
  - Otherwise, report "M" (Mixed).
