

Campus Instruction: Settings - Study Guide

Last Modified on 08/23/2023 3:02 pm CDT

Campus Instruction is designed to collect all the tools needed by teachers to effectively manage classrooms and instruction. Some of the tools available in Campus Instruction may require additional setup or allow users to modify individual settings or preferences.

Campus Learning

Campus Learning, an enhancement to Campus Instruction, is the Infinite Campus learning management system (LMS) that connects teachers to new, powerful tools for digital learning.

Campus Learning Startup Guide

To get started with your new Campus Learning license you will need to enable tool rights to access their new Campus Learning tools.

+ [Documentation](#)

Campus Learning Usage

Track how staff are using Campus Learning tools using the Campus Learning Usage tool.

+ [Documentation](#)

+ [Video](#)

+ [Simulation](#)

Classroom

Teachers using Classroom can view curriculum at a glance and navigate between tools while staying within the context of their classroom.

Classroom Settings

To get started with Classroom, the Classroom view will need to be enabled from Classroom Settings. When enabled, the Classroom view will display for all students and parents in the district and makes Classroom available for teachers to enable from their Teaching Center.

+ [Documentation](#)

Digital Repository

Digital Repository Preferences

The Digital Repository provides districts with storage space to save uploaded documents. From Preferences, administrators can set digital repository preferences for the entire school district.

+ [Documentation](#)

+ [Video](#)

Digital Learning Applications

The Digital Learning Applications Configuration tool allows districts to configure and manage OneRoster and Learning Tool Interoperability (LTI) connections.

+ [Documentation](#)

Configuring OneRoster Connections

OneRoster connections allow outside programs to request roster and section data from Campus and, if enabled, send assignment and score data back through the OneRoster API.

+ [Documentation](#)

+ [Video](#)

Configuring LTI Connections

Learning Tool Interoperability (LTI) connections allow districts to establish connections with other learning tool providers and integrate those tools with assignments.

Digital Learning Partners

This section provides additional information about Digital Learning Partners (DLP).

Digital Learning Partners - Tips & Troubleshooting

Troubleshooting tips for specific Digital Learning Applications.

+ [Documentation](#)

Configure and Manage Google Classroom Connections

Setup and manage Google Classroom connections that allow teachers to sync assignments and scores entered from Google Classroom into their Campus Grade Book.

+ [Documentation](#)

Schoology - Configuration and Tips

Schoology is a learning management system that is part of the Infinite Campus Digital Learning Partner program. Connections to Schoology are configured in the Digital Learning Applications Configuration tool.

+ [Documentation](#)

Discussions

Discussions (System Administration)

From the Discussions tool in System Administration, users can view all discussions for the selected school, post in discussions, and resolve flags.

+ [Documentation](#)

Engagement Check-In Administration

Engagement Check-In Administration

The Engagement Check-In Administration tool allows administrators to view past, current, and future check-ins and student responses.

+ [Documentation](#)

+ [Video](#)

Google Drive

Google Drive can be integrated with Infinite Campus to allow teachers and students to use Google Drive files in the classroom.

+ [Documentation](#)

Google Drive Configuration

The Google Drive Configuration tool allows administrators to configure the integration of Google Drive files with assignments in Infinite Campus.

+ [Documentation](#)

Google Drive Preferences

Using Google Drive Preferences, administrators can select which schools should have access to the Google Drive options in their assignments.

+ [Documentation](#)

+ [Video](#)

User Menu

From the User Menu, users can access and modify individual settings and preferences.

Account Settings

The Account Settings tool allows teachers to set display preferences for Campus Instruction.

+ [Documentation](#)

+ [Video](#)

View and Manage Notifications

From Notifications, teachers can view and manage their messages.

+ [Documentation](#)

Try New Look

Infinite Campus has a new look and feel with big improvements to navigation including favorites, recents, and search. Users can toggle the switch from the User Menu to turn on the new user interface.
