

Messenger 2.0 Open Beta

Last Modified on 07/15/2024 1:49 pm CDT

With the release of Campus.2223, Messenger 2.0 is now in open beta and available for any district to use. Located in the Communication module (New Look of Campus), Messenger 2.0 consolidates many classic Messenger tools to optimize user experience and enhance messenger performance. With a refreshed look, Messenger 2.0 provides users with the added ability to send messages from mobile devices to Students, Parents and Staff. In addition, we've added navigation buttons to provide easy movement back and forth between screens when creating a message.

Because of ongoing development, Messenger 1.0 will continue to be available until feature comparability is reached. Messenger 1.0 tools can be used in parallel while we are adding more functionality.

Mobile compatibility is only available in Messenger 2.0 in the new look and feel of Campus.

Messenger 2.0 combines the functionality of these four existing tools into one improved workflow.

- Message Builder
- Message Builder Scheduler
- Staff Messenger
- Emergency Messenger

Highlights

- **Distinguish separate tool rights:** Control who can send messages and in what format.
- **Multiple Calendar Selection tool:** Allows messages to be sent to multiple calendars simultaneously.
- **Templates:** Save recipient, calendar, and delivery modes within a template.
- **New responsive design:** Send messages via desktop, tablet or phone.

Watch for additional features to be released as they are developed.
