Technical Information

See the Technical Information - Release Pack Campus.2227 (https://kb.infinitecampus.com/help/technical-information-release-pack-campus2227) article for a list of schema changes in this release.

Academic Programs

Academic Planning (SIS-147176)

An issue where the Academic Plan Progress Report was showing “No Data Found” on the Portal has been resolved.

Article(s): Campus Parent Portal, Campus Student Portal

Path: Campus Student/Campus Parent

Academic Planning (SIS-154562) **[Enhancement]**

Course Plan Templates can now be deleted or overwritten for students when using the Programs and/or Batch Assignment tool for Graduation Programs.

Article(s): Batch Program Assignment Wizard, Graduation Programs (Academic Planning)

Path: Student Information > Program Administration > Batch Program Assignment Wizard, Student Information General > Program Participation

Course Plans (SIS-155901)

An issue where Alternates and Non-Credit courses on a student's Course Plan were not appearing on the Portal has been resolved.

Article(s): Course Plan (Academic Planning)

Path: Student Information > Academic Planning Course Plan

Activity Registration

Roll Forward Error Corrected (SIS-156535)

An issue was identified where users saw an error message when using the Activity Registration Roll Forward tool and there was a preapproval configuration conflict related to the new Preapproval process (SIS-151131) that was released with Campus.2223. This issue was corrected.

Article(s): Activity Roll Forward

Path: Activity Registration > Activity Roll Forward

Activity Registration Maintenance (SIS-156234)

Enhancements

- Approvers who are associated with a Preapproval record but are no longer active in Campus or were removed from a Preapproval Configuration now display on the Preapproval panel in the Activity Dashboard and the Activity Monitor. Previously, Campus removed the approver from the list of Approvers on the Preapproval panel.
- The headers "Required Forms" and "Optional Forms" were added to the Registration Status dropdown list on the Activity Roster to help clarify the options and remove the words "optional" and "required" from the individual filter names. As part of this change, registration records with the status "Optional Forms - In Progress" were converted to "Review Needed." An additional filter called "Complete" was added for optional forms.
- The "Activity Staff" and "Activity Preapproval" staff roles are now available in Ad Hoc as part

of the Census/Staff Data Type under Staff > Assignment.

Fixes

- Preapproval notifications were not displaying for user accounts with the Home Page set to "Campus Instruction." This issue was fixed.
- When an activity is in a state past step 5 of the Activity builder, additional changes to the activity should no longer prompt for Preapproval if a Preapproval Configuration was made after the activity's creation.
- When changing the name of an activity proposal there was no notification that the activity name no longer matched the product name. This issue was corrected and Campus now prompts the user to update the product name to match the activity name on the proposal.
- Users could not manually add a student to a roster if a registration had already been started in Campus Parent or Campus Student. This issue was corrected.

Ad hoc Reporting

Data Analysis Student Demographics Report Producing Error (SIS-151728)

Users were receiving an error when attempting to generate the Student Demographics Report. This issue was corrected.

Article(s): Student Demographic Report (Pivot Designer)

Path: Ad Hoc Reporting > Data Analysis > Student Demographic Report

Bug Causing Pivots to Time Out (SIS-155882)

A bug was causing pivots to take a very long time to generate and eventually time out. This issue was corrected.

Article(s): Pivot Designer

Path: Ad Hoc Reporting > Data Analysis > Pivot Designer

Assessments

Assessment (SIS-156537) **[Enhancement]**

A new option has been added for Assessment Type, BIL:Biliteracy. If selecting this option, it is recommended to do so using the Assessment Center tool.

Article(s): Assessment Center, Test Setup

Path: Student Information > Assessment Administration > Assessment Center, Student Information > Assessment Administration > Test Setup

Attendance

Dialer Extract (SIS-155452) **[Enhancement]**

The Dialer Extract has a new look to meet current technology initiatives. The functionality of the report has not changed, and still reports the students and their contact information for when they are marked absent in a period with an unknown excuse.

Article(s): Dialer Extract

Path: Attendance > Reports > Dialer Extract

Campus Instruction

Instruction Reports - Inactive Sections (SIS-98019)

Previously, if a section was marked as Inactive, it still displayed as an option in some Instruction Reports. This has been corrected.

Article(s): Reports (Instruction)

Path: Instruction > Report

Control Center Attendance Update (SIS-140439) **[Enhancement]**

When a student is rostered into multiple sections in the same period, the Attendance tool only displays that student once. Previously, the Control Center showed the student multiple times, but has now been updated to match the Attendance tool logic.

Article(s): Teaching Center

Path: Instruction > Control Center

Read-Only Lockers Access (SIS-150931) **[Enhancement]**

The Lockers tool has been updated to allow teachers to be assigned only read-only access to the tool so they can view locker assignments without being able to edit them. Tool rights have been updated to add a new "Edit Lockers" sub-right.

Article(s): Lockers

Path: Instruction > Lockers

Classroom (New!) (SIS-154341) **[Enhancement]**

Classroom provides a new section-based paradigm for teachers, compared to the tool-based structure traditionally found in Instruction. When enabled, Classroom collects related tools and presents them within the context of a single section.

In conjunction with the release of Classroom, the Control Center has been renamed to 'Teaching Center' for all users. Additionally, tools in the Instruction menu of the navigation have been rearranged.

In the Classroom view, tools are divided into four tabs. The first tab, Classroom, provides a summary of the section as well as a list of current and upcoming curriculum, with easy access to assignments, resources, and folders, as well as submissions and scoring. The Curriculum tab provides the same curriculum functionality found in tools such as the Grade Book and Planner, where teachers can search, filter, and view their curriculum. The Students tab collects a variety of tools related to classroom administration, such as the Roster, Attendance, and Seating Charts. Finally, the Grades tab collects grading-related tools such as the Grade Book, Post Grades, and the Progress Monitor.

When in the Classroom view, each tool is displayed in the context of that section. Switch sections using the dropdown list at the top, or by using the Home button to return to the Teaching Center (formerly Control Center) and select a different section.

There are two steps to enabling the Classroom view. First, districts must enable Classroom for all students and parents via the Classroom Settings tool. When enabled here, Campus Student and Campus Parent will see the new Classroom view in place of the Course Info tab, accessed throughout the apps by clicking the name of a Course Section. Next, each individual teacher has the option of enabling Classroom using the toggle in the top right corner of the Teaching Center.

Campus Student/Parent

Campus Student/Parent Updates (SIS-156481)

The following updates have been made to Campus Student and/or Campus Parent:

- Updated accessibility.
- Previously, parents with staff user accounts in Campus were not correctly reported in the Portal Usage Report. This has been corrected.
- A Calendar dropdown list has been added to the Assignments tool to filter assignments based on the enrollment/calendar of the assignment.
- Students using Android devices can now upload files via the app without being redirected to a web browser.

Viewing Future Schedules in Campus Parent (SIS-156917)

Campus Parent has been updated so that if a student has a schedule in a future year, it will display in Campus Parent based on the enabled Display Options for the calendar in which each student is enrolled.

Article(s): Display Options

Path: System Administration > Portal > Preferences > Display Options

Census

Portal Request Processor - Calendar Rights for Processing Requests (SIS-153117)

The ability to process Portal Requests for demographic updates to student information from Campus Parent no longer requires staff to have modify rights to a calendar.

Article(s): Portal Request Processor

Path: Census > Portal Request Processor

Latitude, Longitude Geocode Value (SIS-156530)

An error occurred when saving the Geocode value for the latitude and longitude values on an address as it was populating a 14-digit value. This has been corrected.

Article(s): Address Information, Add Address

Path: Census > Add Address, Census > Addresses > Address Info

Contact Log

Contact Log Display Correct Enrolled School (SIS-113146)

Previously, if a student switched school enrollments, the Contact Log was displaying the incorrect school for that student on the PDF print format. The Contact Log has been updated to display the currently active enrollment for the student's Grade and School in the header. If the student is not actively enrolled, the Current Grade displays as N/A and the Current School displays as "Not actively enrolled."

Data Change Tracker

Attendance Tables Moved to Excluded Tables Area of Data Change Tracker (SIS-153690)
[Enhancement]

Attendance tables have been moved to the Excluded Tables section of the Data Change Tracker. Although Attendance tables were already excluded from Data Change Tracker functionality, this change was needed to add clarity and visibility to their exclusion. Attendance tables are excluded because this data is already captured in the core attendance auditing structure within Infinite Campus.

Article(s): Data Change Tracker

Path: System Administration > Data Change Tracker > Data Change Tracker Setup

Digital Repository

Digital Repository Preferences Reworked to Improve Clarity and Usability (SIS-151999)
[Enhancement]

Digital Repository Preferences have been completely reworked to greatly improve clarity into current data usage, provide file upload preferences, and consolidate all preferences into sections within a single tool instead of individual tabs.

Now when accessing the tool you are first shown a Cost Calculation section, detailing the user's cost per gigabyte, their estimated billable usage for the year, their current non-billable allotment for the year (amount of space not billed to the customer) and their current total usage. A graphic is provided, showing how this data is used to calculate their current billable usage for the year and a pie chart breaks down how much space is being used per area of Infinite Campus.

Preferences that used to be individual tabs are now expandable sections within the tool where you can individually enable or disable document attachment functionality per tool.

You can also view the terms of service by clicking a new View Terms button found near the bottom of the tool.

For more information about the new Digital Repository Preferences tool, see the Digital Repository Preferences (https://kb.infinitecampus.com/help/digital-repository-preferences) article in the Knowledge Base.

Ed-Fi

Ed-Fi Bug Fix for Leading Spaces on Period Schedule Name and Period Name (SIS-156492)

The Period Schedule Name and Period Name fields were previously being sent to Ed-Fi with a leading space. Ed-Fi accepted the data, but the data could not be used as a reference which was causing all dependent resources to error. The Ed-Fi code has been updated to remove the extra spaces to prevent this issue from occurring in the future.

If any districts have encountered this issue in versions prior to the .2227 release, please contact Campus to help resolve data issues caused by this bug.

Fees

Course Missing from Fee Assignment Panel (SIS-154651)

When a fee was assigned using the Course Fee Wizard, the Course was not displaying on the Fee Assignment Panel. This issue was corrected. The Course associated with the assigned fee now displays below the Fee name.

Article(s): Fees (Student)

Path: Student Information > General > Fees

Update for Option to Upload and View Documents (SIS-156014)

The option to upload and view documents in Student Information > General > Fees is now available. Documents uploaded prior to the Campus.2211 release should now be available.

FRAM

FRAM Letter Batch - Direct Certification Approval Letter Had Incorrect Eligibility (SIS-120548)

When two students in the same household had different Direct Certification eligibilities with the same start date, the Direct Certification Approval Letter was reporting the same eligibility for both students. This issue was corrected. Now, Campus will generate a separate letter for each student in the household who is approved with a certification and eligibility combination that is different than other student(s) in the household.

Article(s): Letter Batch Report

Path: FRAM > Reports > FRAM Letter Batch

Verification Summary Report Update (SIS-140809)

Section 4B of the Verification Summary report was not including students who had an approved FRAM eligibility that started after 10/1 and were still active on the last operating day of October. This issue was corrected.

Kansas - Section 504 Tool (SIS-148676)

The Section 504 tool is now available for Kansas districts. The Section 504 field on the Enrollment Record is now read only.

Existing data for Section 504 already entered for 2022-23 enrollments has been converted to the new tool. Only one Section 504 record for each student has been converted, using the most recent enrollment when a student may have multiple enrollments. The following conversion was done:

- When the Section 504 field on the enrollment record had a value of 1, a Start Date of July 1, 2022 exists in the Section 504 tool, with a blank End Date.
- When the Section 504 field on the enrollment record had a value of 2, a Start Date of July 1, 2002 exists in the Section 504 tool, with an End Date of the date the conversion took place.

The KIDS EOYA Collection Extract has been updated to report Section 504 data from the new tool, with the following logic:

- When a student has a Primary Disability of WD, a value of 1 reports.
- When a Section 504 record exists AND the Start Date is on or before the To Date on the Extract Editor and the End Date is null or on or after the To Date on the Extract Editor, a value of 1 reports.
- When a Section 504 record exists AND the End Date is not null and is after the enrollment start date and is before the To Date entered on the Extract Editor, a value of 2 reports.

+Utah – State Score Field Added to Score Groups+ (SIS-155900)

The State Score field has been added to the Score Groups editor. This new field allows users to align a State Score value to each score within a score group.

Along with this update, logic for the SIF StudentSectionEnrollment/GradeEarned element has been updated to the following:

1. Reports the State Score when not null, from the Grading Task assigned to the student in the section that has “State Reported” and “Final” = checked.

2. If State Score is null, report Score (Grading & Standards > Score Groups & Rubrics > Score Group List Items Detail > Score), from the Grading Task assigned to the student in the section that has “State Reported” and “Final” = checked.

3. When > 1 grading tasks for the same term has “State Reported” and "Final" = checked, reports the grade with the highest (latest) ID grading score.

4. When the qualifying State Score and Score is blank, or there is no qualifying Grading Task, reports this element as blank.

5. Updated Data Source GUI: Grading & Standards > Score Groups & Rubrics > Score Groups & Rubrics Editor > Score Group List Items Detail > State Score
