

Wisconsin Ed-Fi Data v3.5 - Student School Association

Last Modified on 03/19/2024 8:50 am CDT

Tool Search: Ed-Fi

This association represents the school in which a student is enrolled.

Object Triggering Logic

This table describes logic for triggering syncing of this object.

Action	Trigger
Post	<p>When a new enrollment is saved for a student. A record will report for each distinct enrollment in a School and Enrollment Start Date.</p> <ul style="list-style-type: none"> When a student has two enrollments in the same School, Calendar & Schedule Structure with the same start date, report from the enrollment service type in the following order: <ol style="list-style-type: none"> P: Primary Enrollment S: Partial/Ancillary N: Special Ed Services When an enrollment with a higher priority is deleted, the enrollment with lower priority will post a new record. Do not send a student record for an enrollment that is marked as State Exclude, No Show, or WISE Exclude. Do not send a record if enrollment is in a calendar marked as State Exclude, Summer School, or in a School marked Exclude. If Ed-Fi Configuration Profile = Choice + Opt in report a record for all eligible students if Choice = Yes or No on the student's enrollment. If Ed-Fi Configuration Profile = Choice AND Choice = No on Student enrollment, do not report a record.
Post	<p>When the start date for an enrollment is changed.</p> <ul style="list-style-type: none"> When an enrollment with a lower priority is changed, data will not send.
Put	When a State Enrollment Type is updated for a student.
Delete	When an enrollment is deleted.
Delete	When the start date of an enrollment is changed.
Delete	When the State Exclude, No Show, or WISE Exclude check box is checked.

Resource Toggle and Resync Logic

This table describes the Resource Toggle and Trigger logic of this object.

Action	Business Rule
None	If a resource is toggled to 'OFF' after data has sent, all sent data will remain in the ODS but no new data will send.
Put	If the natural key of the Calendar Reference is changed, a put will be done to update the Calendar Reference even if the Student School Association resource is turned 'OFF'
Resync	If a record is in the Ed-Fi Identity Mapping table and not in the ODS, it will be deleted from the Ed-Fi Identity Mapping table
Resync	If a record is in the ODS and it does not have a matching record in Campus or the Ed-Fi Identity Mapping table, it will be deleted from the ODS.
Resync	If a mapping is changed in Resource Preferences, a resync will need to be done to reflect the changes.

Natural Key Changes, Cascading Updates, and Deletes Logic

This table describes the Natural Key Changes/Cascading Updates and Deletes logic of this object.

Action	Business Rule
--------	---------------

Action	Business Rule
Post/Delete	<p>Natural Key changes:</p> <ul style="list-style-type: none"> If the School ID changes, all data will remain under the old number and a resync will need to be completed to populate data under the new number. The delete tool would need to be used to remove all data from the old School ID. If an Ed-Fi ID changes, this will happen with the cascading deletes from the Ed-Fi ID Change trigger. If the enrollment start date changes, all dependent resources will be deleted and reposted. If a dependent resource is turned off, all dependent resources will be deleted and not reposted.
Delete	<p>Cascading Deletes: If the Student School Association is deleted, all dependent resources will be deleted.</p> <ul style="list-style-type: none"> Student Parent Associations, Student Education Organization Associations, Student Section Associations, Graduation Plans, Student Program Associations, Student CTE Program Associations, Student Special Education Program Associations, Student Title 1 Part A Program Associations, Student Academic Records, Course Transcripts, Grades, Student Discipline Incident Associations, Discipline Actions, Student Cohort Associations, Student School Attendance Events, Student Section Attendance Events

Scope Year Logic

This table describes scope year logic of this object.

Logic
The record will send to the scope year for the school year the enrollment is associated with.
Data will only send for the years that have valid configuration.

Identity Mapping Object Key

This table describes the Identity Mapping Object Key of this object.

campusObjectType	Object Key Data Source
Enrollment	enrollmentID

Event Queue Detail

This table describes the Event Queue Detail of this object.

Campus Table	Ed-Fi Action	Fields
enrollment	Post/Put/Delete	The primary table used for sending data for this resource
person	Post/Delete	Student ID in Student Reference
graduation	Put	Class of School Year Type Reference
programs	Put	Graduation Plan Reference
programparticipation	Put	Graduation Plan Reference

Object Data Elements

This table describes data elements sent within the Student School Association resource.

Data Element Label	Business Requirement	Business Rules	M, C or O	Data Source GUI Path	Database Field
id	The unique identifier of the resource.		M		
entryDate	The month, day, and year on which an individual enters and begins to receive instructional services in a campus.	Report the enrollment start date.	M	Student Information> General> Enrollments> Start Date	enrollment.sta

Data Element Label	Business Requirement	Business Rules	M, C or O	Data Source GUI Path	Database Field
calendarReference	A reference related to the Calendar resource.	Report the Calendar reference for the calendar in which the student is enrolled that is being reported.	O		
classOfSchoolYearType Reference	The year the student is expected to graduate.	This is optional, does not report.	O		
graduationPlanReference	A reference to the related GraduationPlan resource.	This is optional, does not report.	O		
schoolReference	A reference to the related School resource.	Reports the fields that are part of the Natural Key for the School resource.	M		
schoolYearType Reference	The school year the student is being reported in.	This is optional, does not report.	O		
studentReference	A reference to the related Student resource.	Report the reference for the student being reported.	M		
educationPlans	An unordered collection of studentSchoolAssociationEducationPlans. This association represents the school in which a student is enrolled.	This is optional, does not report.	O		
employedWhile Enrolled	An individual who is a paid employee or works in his or her own business, profession, or farm and at the same time is enrolled in secondary, postsecondary, or adult education.	This is optional, does not report.	O		
entryGradeLevel Descriptor	The grade level or primary instructional level at which a student enters and receives services in a school or an educational institution during a given academic session.	<ol style="list-style-type: none"> 1. Report the Ed-Fi Code from the Grade Level mapping for the grade selected on the student's enrollment. 2. If a mapping is not available, the record will error. 	M	Student Information> General> Enrollments> Grade	
entryGradeLevel ReasonDescriptor	A unique identifier used as Primary Key, not derived from business logic, when acting as Foreign Key, references the parent table.	This is optional, does not report.	O		
entryTypeDescriptor	A unique identifier used as Primary Key, not derived from business logic, when acting as Foreign Key, references the parent table.	This is optional, does not report.	O		
exitWithdrawDate	The month, day, and year of the first day after the date of an individual's last attendance at a campus (if known), the day on which an individual graduated, or the date on which it becomes known officially that an individual left school.	Report the enrollment end date.	O	Student Information> General> Enrollments> End Date	enrollment.en
exitWithdrawType Descriptor	A unique identifier used as Primary Key, not derived from business logic, when acting as Foreign Key, references the parent table.	<ol style="list-style-type: none"> 1. Report the Ed-Fi Code Value from the End Status selected. 2. If blank, do not report. 	O	Student Information> General> Enrollments> End Status	enrollment.en

Data Element Label	Business Requirement	Business Rules	M, C or O	Data Source GUI Path	Database Field
primarySchool	Indicates if a given enrollment record should be considered the primary record for a student. If omitted, the default is true.	<ol style="list-style-type: none"> 1. Report 'True' if State Enrollment Type = P "Primary". 2. Otherwise, if Service Type = P: Primary. 3. Else, report 'False'. 	M	Student Information> General> Enrollments> State Enrollment Type Student Information> General> Enrollments> Service Type	enrollmentWI. enrollment.ty
termcompletionIndicator	Indicates whether or not a student completed the most recent school term.	<ol style="list-style-type: none"> 1. For the enrollment that determines the entry date. 2. If State Enrollment Type is NOT = Primary, do not report. 3. Otherwise, if State Enrollment Type = Primary, continue to calculate. 4. If the enrollment is ended prior to the last day of the school year. <ul style="list-style-type: none"> ◦ AND end Status = HSC: High School Completion, report TRUE ◦ AND end status is any other status, report FALSE 5. If the current date is after the last day of the school year. <ul style="list-style-type: none"> ◦ AND the enrollment end date is on or after (= >) the last day of the school year, report TRUE ◦ AND if the enrollment end date is blank, report TRUE 6. Otherwise, report FALSE. 	C	Student Information > General > Enrollment > End Date	enrollment.en

Data Element Label	Business Requirement	Business Rules	M, C or O	Data Source GUI Path	Database Field
repeatGradeIndicator	An indicator of whether the student is enrolling to repeat a grade level, either by failure or an agreement to hold the student back.	<ol style="list-style-type: none"> 1. Do not report for students Enrolled in a School with Ed-Fi Reporting Option of Choice ONLY or Choice + Private Opt In. 2. If students are enrolled in a school with Ed-Fi Reporting Option = Public. <ul style="list-style-type: none"> ◦ If State Enrollment Type = Primary. ◦ AND If the End Action = Retain on the Enrollment determining reporting, report TRUE. <ol style="list-style-type: none"> 1. Otherwise, report FALSE. ◦ If State Enrollment Type is NOT Primary, do not report. 	O	Student Information > General > Enrollment > End Action	enrollment. ei
residencyStatus Descriptor	An indication of the location of a persons legal residence relative to (within or outside of) the boundaries of the public school attended and its administrative unit.	This is optional, does not report.	O		
schoolChoiceTransfer	An indication of whether students transferred in or out of the school did so during the school year under the provisions for public school choice in accordance with Title I, Part A, Section 1116.	This is optional, does not report.	O		

Data Element Label	Business Requirement	Business Rules	M, C or O	Data Source GUI Path	Database Field
studentSchoolAssociation Extensions (actualDaysAttendance)	Aggregate value that captures the actual days in attendance for a student.	See actualDaysAttendance in Appendix B below for reporting logic.	O	Student Information > General > Enrollment > Attendance Override OR Calculated from: System Administration > Calendar > Calendar > Grade Level > Standard Day System Administration > Calendar > Calendar > Days System Administration > Calendar > Calendar > Periods Student Information > General > Schedule Student Information > General > Attendance	

Data Element Label	Business Requirement	Business Rules	M, C or O	Data Source GUI Path	Database Field
studentSchoolAssociation Extensions (possibleDaysAttendance)	Aggregate value that capture the possible days in attendance for a student.	See possibleDaysAttendance in Appendix B below for reporting logic.	O	Student Information > General > Enrollment > Membership Override OR Calculated from: Student Information > General > Schedule System Administration > Calendar > Calendar > Grade Level > Standard Day System Administration > Calendar > Calendar > Days System Administration > Calendar > Calendar > Periods	
studentSchoolAssociation Extensions (Wi_studentSchool AssociationReceivingService)	An unordered collection of student School Association Wisconsin Ext Receiving Services.	See Receiving Services in the Array section below for reporting logic.	O		
studentSchoolAssociation Extensions (completedSchoolTerm)	Indicates whether or not a student completed the school term during the school enrollment period. It is collected for every student enrollment record and is not related to graduation. A student could have more than one enrollment record for a school year.	Report Null.	O	Student Information > General > Enrollment > End Date	
studentSchoolAssociation Extensions (expectedTransferLocal EducationAgencyReference)	A reference to the related EducationOrganization resource.	<ol style="list-style-type: none"> 1. If State Enrollment Type is NOT = Primary, do not report. 2. Otherwise, if State Enrollment Type = Primary, continue to calculate. 3. If Transfer District field is not Null on the most recent enrollment in the school, report the code value of the Transfer District. 4. Otherwise, report blank. 	O	Student Information > General > Enrollment > Transfer District	enrollmentWI.

Data Element Label	Business Requirement	Business Rules	M, C or O	Data Source GUI Path	Database Field
studentSchoolAssociation Extensions (expectedTransfer SchoolReference)	A reference to the related School resource.	<ol style="list-style-type: none"> If State Enrollment Type is NOT = Primary, do not report. Otherwise, if State Enrollment Type = Primary, continue to calculate. If Ed-Fi Transfer School ID is not Null on the most recent enrollment in the school, report the value entered in the field. Otherwise, report blank. 	O	Student Information > General > Enrollment > Ed-Fi Transfer School ID	enrollmentWI.
studentSchoolAssociation Extensions (privateSchoolChoice ProgramParticipant)	Indicates whether a student is a choice student or not.	<ol style="list-style-type: none"> Report from the Enrollment generating the record. <ul style="list-style-type: none"> If the enrollment generating the record is in a school where Ed-Fi School Population is marked Choice or Choice + Private Opt in. If Choice student = Y: Yes, report TRUE. Otherwise, report FALSE. 	O	Student Information > General > Enrollment > Choice Student	enrollmentWI.
studentSchoolAssociation Extensions (parentPlacedPrivate)		<ol style="list-style-type: none"> If State Enrollment Type is = Parent Placed Private, report TRUE. Otherwise, report FALSE. 	O	Student Information > General > Enrollment > State Enrollment Type

Reference	Description	Logic/ Conditions	Visualization(s)/ Results
1	Deleting enrollments when there are multiple concurrent enrollments	<ol style="list-style-type: none"> 1. A Primary (P) and Special Ed (N) enrollment exist and an Ed-fi record posts with Attendance data. 2. The Primary (P) enrollment is deleted. 3. The Special Ed (N) enrollment is not changed or edited in any way. 	<p>Expected Results:</p> <p>The StudentSchoolAssociationWExt record with the start date of the Primary Enrollment is deleted when the Primary enrollment is deleted.</p> <p>A new StudentSchoolAssociationWExt record is created and attendance is recalculated based on only the remaining existing Partial enrollment.</p>

Appendix B: Attendance Calculations

Data Element	Logic
--------------	-------

Data Element	Logic
actualDaysAttendance	<ol style="list-style-type: none"> 1. Report this element for only one (1) active record per school based on the highest order of enrollments. <ul style="list-style-type: none"> ◦ Only report for enrollments where State Enrollment type is Primary. ◦ When State Enrollment Type is PPP, report 0. ◦ When State Enrollment Type is Coursework only, do not report attendance. ◦ If there are multiple enrollments and the determining enrollment is ended, report in the next most recent by start date. 2. Report an aggregate from all enrollments in the school the have the same start date. 3. Report first from the Attendance Override field on Enrollment if entered on any of the enrollments fitting the requirements. 4. Otherwise, if Membership Override is NULL/ blank on all reporting Enrollments, continue on to the calculation. 5. Report using the calculation based on the Grade Level, Standard Day setting for the reporting enrollment's grade (System Administration > Calendar > Calendar > Grade Level > Standard Day). <ul style="list-style-type: none"> ◦ If a student's enrollment determining the record has a grade level where the standard day is 0.5, the student is considered a Partially Scheduled student and the Partially Scheduled Students calculation should be used to determine their Attendance. ◦ If the Grade Level does NOT have a Standard day of 0.5, determine which calculation to use based on the student's Percent Enrolled. 6. Report using calculation based on the student's Percent Enrolled: <ul style="list-style-type: none"> ◦ If a student's enrollment determining the record has Percent Enrolled of 51 -100 or NULL, the student is considered a Full Schedule student. ◦ If a student's enrollment determining the record has Percent Enrolled of 50 or less, the student is considered a Partially Scheduled student. 7. Full Schedule Students calculation <ul style="list-style-type: none"> ◦ For each day that meets the following where the student has a schedule: <ul style="list-style-type: none"> ▪ Instructional, attendance, school date are checked. ▪ Day event is NOT 99: Health Emergency. ◦ If the student meets the above and has no attendance marks, add 1 to actual days of attendance for that date. ◦ If the student meets the above has attendance marks of Absent Excused or Absent Unexcused, calculate the total number of scheduled minutes for the student and the total minutes present for the student on that day. <ul style="list-style-type: none"> ▪ If the student's present minutes are 66% or more of the calculated minutes scheduled, add 1 to the actual days of attendance for that date. ▪ If the student's present minutes are 33% or more but less than 66% time present, add a half day (0.5) to the actual days of attendance for that date. ▪ If the student less than 33% time present, do not add any days (0) to the actual days of attendance for that date. 8. Partially Scheduled Students calculation <ul style="list-style-type: none"> ◦ For each day that meets the following where the student has a schedule: <ul style="list-style-type: none"> ▪ Instructional, Attendance, School Date are checked. ▪ Day event is NOT 99: Health Emergency. ◦ If the student has no attendance marks, add 0.5 to actual days of attendance for that date. ◦ If the student has attendance marks of Absent Excused or Absent Unexcused but is present 1 or more minutes, add 0.5 to actual days of attendance for that date. ◦ If the student has attendance marks of Absent Excused or Absent Unexcused for the entire day with 0 minutes present, do not add any days (0) to the actual days of attendance for that date. 9. Report the total of all actual days of attendance from the beginning of the enrollment to the current date.

Data Element	Logic
possibleDaysAttendance	<ol style="list-style-type: none"> 1. Report this element for only one (1) active record per school based on the highest order of enrollments. <ul style="list-style-type: none"> ◦ Only report for enrollments where State Enrollment Type is Primary. ◦ When State Enrollment Type is PPP, report 0. ◦ When State Enrollment Type is Coursework only, do not report attendance. ◦ If there are multiple enrollments and the determining enrollment is ended, report in the next most recent by start date. 2. Report an aggregate from all enrollments in the school that have the same start date. 3. Report first from the Membership Override field on Enrollment if entered on any of the enrollments fitting the requirements. 4. Otherwise if Membership Override is NULL/ blank on all reporting Enrollments, continue on to the calculation. 5. Report using calculation based on the Grade Level, Standard Day setting for the reporting enrollment's grade (System Administration > Calendar > Calendar > Grade Level > Standard Day). <ul style="list-style-type: none"> ◦ If a student's enrollment determining the record has a grade level where Standard day is 0.5, the student is considered a Partially Scheduled student and the Partially Scheduled Students calculation should be used to determine their Attendance. ◦ If the Grade Level does not have a Standard day of 0.5, determine which calculation to use based on the student's Percent Enrolled. 6. Report using calculation based on the student's Percent Enrolled: <ul style="list-style-type: none"> ◦ If a student's enrollment determining the record has Percent Enrolled of 51 -100, or NULL the student is considered a Full Schedule student. ◦ If a student's enrollment determining the record has Percent Enrolled of 50 or less the student is considered a Partially Scheduled student. 7. Full Schedule Students calculation <ul style="list-style-type: none"> ◦ For each enrollment included in the record calculation from the enrollment start date to the current date, count the unique days of enrollment in each calendar for the days marked Instruction, School, and Attendance and the Day Event is not 99: Health Emergency. <ul style="list-style-type: none"> ▪ If the student is not scheduled on that date, do not add any possible days of attendance for that date. ▪ If the student is scheduled into Attendance taking courses, add 1 to the possible days of attendance. 8. Partially Scheduled Students calculation <ul style="list-style-type: none"> ◦ For each enrollment included in the record calculation from the enrollment start date to the current date, count the unique days of enrollment in each calendar for the days marked Instruction, School, and Attendance and the Day Event is not 99: Health Emergency. <ul style="list-style-type: none"> ▪ If the student is not scheduled on that date, do not add any possible days of attendance for that date. ▪ If the student is scheduled into Attendance taking courses, add 0.5 to the possible days of attendance. 9. Report the total of all possible days of attendance from the beginning of the enrollment to the current date.

Type/Descriptor

[▶ Click here to expand...](#)

Enrollment Type

Code	Description
Primary	Enrollment at the school that most directly supervises the PK-12 educational services.
ParentPlacedPrivate	Non-primary enrollment in a public school providing special education services. If the private school providing primary education services is a Choice school, that school submits the student's enrollment as Primary.
Coursework	Non-primary enrollment for students taking courses at a school that is not their primary school.
