# Section Student Detail (Wisconsin)

Last Modified on 02/26/2026 11:53 am CST

Tool Search: Section Student Detail

The Section Student Detail tool provides a location where districts can collect course-related state reporting data for individual students in a course section. This data is not scheduling-related and can include both localized state reporting data elements provided by Campus and custom District Defined data elements created by a district administrator. In Wisconsin, the Section Student Detail tool is used to collect data for Attempt Status Override, Dual Enrollment and World Language.

> See the core Section Student Detail article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and extracting Section Student Detail records.

Section Student Detail

Add Record For Selected Student(s)

To add a new Section Student Detail record for students, click **New**. The Section Student Detail side panel opens. Select the appropriate students, add the Start and End Dates, then select the Career Readiness option for the selected students.

Add a record for ALL students in the section who do not already have a record by using the **Batch Fill** option.

Overlapping records are not allowed.

Add Record for Selected Student(s)

Section Student Detail State Reporting Fields

Attempt Status Override

Indicates whether a student has been enrolled in a section for the minimum amount of time to receive an outcome.

- I - Insufficient
- S - Sufficient
