The Student Calendar Template associates a student's membership days with a unique calendar uploaded in the School Calendar file.

See the PIMS Reporting article for additional PIMS Reporting information.

Report Logic

A student may have more than one record if they were withdrawn and reentered due to a change in one of the following fields:

- Calendar ID
- District Code of Residence
- Funding District Code
- Residence Status Code
- District Code of Sending Charter School
- Current Grade Level
- Special Education Indicator

If a student is enrolled in more than one grade during a calendar, all grades in which the student was enrolled are reported.
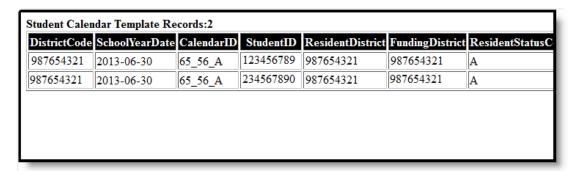

Students must be enrolled within the report generation dates, and the enrollment must be within the school instructional days. If the enrollment end date is before the first instructional day of the year, that record does not report.
