## CRT Alternate Assessment

The CRT Alternate Assessment editor is only available and only needs to be filled out when Alternate is selected as the Participation option on the Assessment editor (previous editor). The CRT Alternate Assessment editor displays on the State Criterion-Referenced (CRT) Alternate Assessment section of the printed IEP.

**State Criterion-Referenced Test (CRT) Alternate Assessment**

The Nevada Alternate Assessment (NAA) is based on alternate achievement standards designed specifically for students with significant cognitive disabilities. Individualized Education Plan (IEP) teams are responsible for determining whether students with disabilities will participate in the alternate assessment or the general assessment (with or without accommodations), and should consider the student's present level of educational performance in reference to the Nevada Academic Content Standards (NACOS) in English Language Arts (ELA), Mathematics, and Science when determining how a student will participate in the Nevada Proficiency Examination Program (NPEP). In order to facilitate informed and equitable decision making, IEP teams should answer each of the following questions when determining whether or not a student should participate in the NAA.

**Questions to Guide the Decision-Making Process to Determine Whether a Student Participates in the Nevada Alternate Assessment and is a Student with the Most Significant Cognitive Disabilities**

Yes  No Is the student eligible for and receiving services under the Individuals with Disabilities Education Act (IDEA) through a current IEP?

Yes  No Does the student demonstrate cognitive functioning and adaptive behavior that limit full participation in the general education curriculum and statewide assessments even with supplementary aids, accommodations, and modifications?

Yes  No Does the student require substantial supports to meaningfully access and achieve measurable gains on the State's challenging grade-level content standards?

Yes  No Does the student require extensive, direct individualized instruction to achieve measurable gains on the state's challenging grade-level content standards and to acquire, maintain, and generalize skills necessary for application in school, home, work, and community settings?

Yes  No The IEP committee's decision about the student's participation in the NAA was NOT primarily based on any of the following: a disability category or label, poor attendance or extended absences, native language, social, cultural, or economic differences, academic and other services received, educational environment or instructional setting, percent of time receiving special education services, English Learner (EL) status, current or previous low academic achievement, or current or previous need for accommodations (e.g., assistive technology) to participate in general State or districtwide assessments.

Yes  No Has the IEP committee informed the parent/guardian of the consequences of the student participating in the Nevada Alternate Assessment (e.g., modified diploma vs. standard diploma) and of being evaluated against alternate achievement standards?

If the IEP team determines that all six questions accurately characterize a student's current educational program, then the Nevada Alternate Assessment should be used to provide a meaningful evaluation of the student's current academic achievement. If "yes" is not indicated in all six areas, then the student should participate in the general assessment with or without accommodations.

**ALL STUDENTS WHO ARE ENROLLED IN THE DISTRICT AND WHO MEET THE NAA PARTICIPATION CRITERIA MUST BE ASSESSED.**

Students should be assessed at the grade level in which they are enrolled and coded in the school's student data information system, and their results will be reported accordingly for accountability purposes. For example, a student participating in a fifth-grade classroom and who is coded as a fifth grader in the school's student data information system would be expected to be assessed using the fifth-grade NAA, regardless of the student's chronological age.

The NAA is administered to a student only one time during high school, in the student's eleventh-grade year. Therefore, a student eligible to take the alternate assessment and enrolled as an eleventh grader should be assessed with the NAA. Consequently, a student enrolled in a ninth-grade classroom and coded as a ninth grader in the school's student data information system would not be assessed with the NAA until that student is coded as an eleventh grader in the student data information system.

The Extended School Year Services editor indicates if the student requires services beyond the standard school time, such as beyond school hours or during breaks. The Extended School Year Services editor displays on the Extended School Year Services section of the printed IEP.

**Extended School Year Services**  
**\*Does the student require extended school year services?**  No  Yes
