## Search Terms: CALPADS Student Absence Summary

The CALPADS Student Absence Summary (STAS) reports chronic absenteeism to the state. It calculates the student's full day absences, but should not be used to for average daily attendance reporting.

CALPADS Student Absence Summary Editor

## Report Logic

One line per enrolled school returns for a student. Students who move between calendars only report one line in the extract. If the student has multiple enrollments in the reporting calendar, the student reports one time. If a student left school and returned, attendance is summed for those multiple enrollments (includes continuation students or community day students). If there are multiple enrollments with gaps between start and end dates, only the dates where the student was actively enrolled and scheduled into instructional attendance taking courses are included.

A student must have the following in order to report:

- An active primary enrollment
- A State ID

A student does not report when:

- An End Status of N470: No Show is assigned to the enrollment record.
- The grade level is marked as State Exclude, the Calendar of enrollment is marked as State Exclude, or the School of Enrollment is marked as State Exclude.

Absence equals a fully day for all student record. Half day attendance codes or period based attendance codes do not count in the calculation.

If a student has a short term Home Hospital enrollment, none of that's student's attendance counts during the Home Hospital period.

## Attendance Codes Mapped to State Codes

To properly calculate the Days Absent Out-of-School Suspension and Days Absent In-School Suspension, the Attendance Codes must be mapped to a State Code of 100: Out-of-School Suspension or 110: In-School Suspension.

## Non-Binary Gender Reporting

Schools can assign students a gender of M: Male, F: Female or X: Non-binary. This is done on the

Identities tool and/or the Demographics tool.

CALPADS Extracts use the Legal Gender field included in the Protected Identity Information to report student identity information.

To properly record a gender of X : Non-Binary, on the Identities tool:

1. Assign the Gender of X: Non-Binary in the standard identify fields.
2. Assign the Protected Identity Information Legal Gender field to either M: Male or F: Female.
3. Save the record when finished.

## Report Editor

| Field | Description |
| :--- | :--- |
| Report Period | Selection determines which date option is used in calculating student <br> attendance - Effective Date, Date Range or School Month. |

| Field | Description |
| :---: | :---: |
| Effective Date | When this option is selected, the report calculates student attendance from the start of the student's current active enrollment in the current active year through the effective date (the effective date is included in the calculation). Dates are entered in mmddyy format or use the calendar icon to select a date. <br> Displays when the Report Period is set to Effective Date. |
| Date Range | When this option is selected, the report calculates student attendance from the entered start date to the entered end date. Both the start and end dates (both must be entered) are used in the calculation. <br> Dates are entered in mmddyy format or use the calendar icon to select a date. |
| School Month | When this option is selected, the report calculated student attendance based on the dates of the selected school month. Only one school month at a time can be selected. |
| Transaction Type | Indicates the type of transaction that will occur: <br> - Replace - existing student attendance information will be replaced with new information <br> - Delete - student attendance information will be deleted. |
| Calculation <br> Type | Determines which attendance calculation is used to calculate the absence summary. <br> - Traditional STAS - reports a student's full day absences <br> - Period-based STAS - reports a student's absences for each period using the Periods Present (attendance) divided by the Total number of Periods the student is expected to attend multiplies by the Days the student is expected to attend. |
| File Format | Determines how the report will generate. Select State Format (Caret Delimited) if submitting records to the state. Other formats available for testing and review purposes are CSV and HTML. |
| Grade Selector | Selection indicates which grade levels of enrollment are included on the report. |
| Legal Name | When marked, the student's legal name and gender information reports from the Protected Identity Information, instead of the student's name and gender. |
| Unknown as Excused | When marked, unknown attendance records are reported as excused absences. This is an optional selection. If it is not marked, unknown teacher attendance is not included in the Days Absent Excused Non-Suspension calculation (Field 19). |

| Field | Description |
| :--- | :--- |
| Unknown as <br> Unexcused | When marked, unknown attendance records are reported as unexcused <br> absences. This is an optional selection. If it is not marked, unknown teacher <br> attendance is not included in the Days Absent Unexcused Non-Suspension <br> calculation (Field 20). |
| Future Exempt <br> Enrollments | When marked, students who enroll after the entered Effective Date, after the <br> End Date of the Date Range and after the last day of the School Month are <br> included in the extract. This affects the following fields: <br> - Field 13, Student Absence Summary Data Collection Exemption <br> Indicator, reports Y. |
| Ad hoc Filter | Select which students to include in the extract by choosing a filter that was <br> created in the Filter Designer. |
| Calendar |  |
| Selection | Select the calendar of enrollment from which to pull student data. Calendars <br> can be chosen by the active year, by the school name or by the year. |
| Report <br> Generation | Choose the Generate Extract to display the results of the chosen items <br> immediately. Choose the Submit to Batch option to generate the report at a <br> specified time. This option is helpful when generating large amounts of data. |

## Generate the CALPADS Student Absence Summary

1. Select the desired Report Period option.
2. Enter the appropriate dates for the report (Date Range or Effective Date), or select the appropriate School Month.
3. Select the desired Transaction Type.
4. Select the desired Calculation Type.
5. Select the desired File Format.
6. Select the desired grade levels.
7. If desired, mark the Legal Name checkbox.
8. Mark the Unknown as Excused or Unknown as Unexcused checkboxes. Only one can be marked at a time.
9. If desired, mark the Future Exempt Enrollments checkbox.
10. If desired, select an Ad hoc Filter to report only those students included in the filter.
11. Select the desired Calendars.
12. Click the Generate Extract button to generate the report instantly, or click the Submit to Batch button to choose when the report generates.

| Days Attended | For Traditional STAS <br> Reports the total number of days in whole numbers (more than 0 days, less than 250 days) the student attended the school. A day attended is defined as any day a student attendance for all or part of a school day. <br> Any day that is marked with State Attendance Code of SSE: Saturday School Excused, SSU: Saturday School Unexcused, 110: In-School Suspension, or HH: Home and Hospital is subtracted from this total. | Calculated value, data not stored |

## Description

## Campus Interface Location

A Day of Absence is defined as a
full day the student did not attend and was marked as unknown, excused or unexcused. This does not include days in Out-of-School Suspension or days in In-School Suspension.

Only periods marked as Instructional and Attendance taking are included in the calculation (periods marked as non-instructional are not included).

When the Hourly Attendance School Type Indicator (field 14) reports Y, the value of Hours Present divided by Hours Scheduled to Attend multiplied by Days Expected to Attend reports.

The calculation for Hourly students is the total value of Excused, Unexcused and OSS days minus subtracted from the Days Expected plus ISS.

Days served in In-School Suspension is included in this calculation.

When the Student Absence Summary Data Collection Exemption Indicator field reports a value of $Y$, this field does not report.

## For Period-based STAS

Reports the total number of days (more than 0 days, less than 250 days) the student attended the school. A day attended is defined by the periods attended divided by the number of periods the student was scheduled for and was for attendance taking of a

| Data Element | Schoolday | Campus Interface Location |
| :---: | :---: | :---: |
|  | Any day that is marked with State Attendance Code of 110: InSchool Suspension is subtracted from this total. <br> For calendar days marked as Instructional and Attendance, attendance periods where the student has a status of present (no attendance entry) is divided by the total number of periods for which the student is scheduled, multiplied by the total number of Instructional and Attendance Taking days in which student was scheduled. <br> For Both Traditional and Period-based STAS <br> The values reported in the NonADA Generating Independent Study Days and ADA Generating Independent Study is subtracted from this calculation. <br> Numeric, 6 digits ( $N$ - NNN.NN) |  |
| Days Absent Out-of-School Suspension | For Traditional STAS <br> Reports the total number of days in whole numbers (more than 0 days, less than 250 days) the student was absent from the regular classroom for the entire school day due to an out-ofschool suspension. <br> - If Attendance has at least one period of attendance, the day cannot count for reporting. <br> - If the attendance is marked with State Code 100 or 110, the behavior resolution is used (OSS = 100). <br> When the Hourly Attendance School Type Indicator reports Y, | Calculated value, data not stored |

by Hours Scheduled to Attend multiplied by Days Expected to Attend reports.

## When the Student Absence

 Summary Data Collection Exemption Indicator field reports a value of $Y$, this field does not report.This field does NOT take into account teacher-entered unknown attendance entries.

## For Period-based STAS

Reports the total number of days (more than 0 days, less than 250 days) the student was absent from the regular classroom for the entire school day due to an out-of-school suspension.

- If Attendance has at least one period of attendance, the day cannot count for reporting.
- If the attendance is marked with State Code 100 or 110, the behavior resolution is used (OSS = 100).
- For calendar days marked as Instructional and Attendance, attendance periods marked as OSS are divided by the student's scheduled total attendance periods multiplied by the total number of Instructional and Attendance taking days in which the student was scheduled.

When the Hourly Attendance School Type Indicator reports Y, the value of Hours Absent Due to Out-of-School Suspension divided by Hours Scheduled to Attend multiplied by Days Expected to

| Data Element | Atestriptports. | Campus Interface Location |
| :---: | :---: | :---: |
|  | When the Student Absence Summary Data Collection Exemption Indicator field reports a value of $Y$, this field does not report. <br> This field does NOT take into account teacher-entered unknown attendance entries. <br> Numeric, 6 digits ( $N$ - NNN.NN) |  |
| Days in <br> Attendance In- <br> School <br> Suspension | For Traditional STAS <br> Reports the total number of days in whole numbers (more than 0 days, less than 250 days) the student was in attendance but absent from the regular classroom for the entire school day due to either an in-school suspension or a teacher suspension from a classroom, or a combination of both. <br> - If Attendance has at least one period of attendance, the day cannot count for reporting. <br> - If the attendance is marked with State Code 110, the behavior resolution is used (ISS = 110) . <br> When the Hourly Attendance School Type Indicator reports Y, the value of Hours Absent Due to In-School Suspension divided by Hours Scheduled to Attend multiplied by Days Expected to Attend reports. <br> When the Student Absence Summary Data Collection Exemption Indicator field reports a value of $Y$, this field does not report. <br> This field does NOT take into account teacher-entered | Calculated value, data not stored |

## For Period-based STAS

Reports the total number of days (more than 0 days, less than 250 days) the student was in attendance but absent from the regular classroom for the entire school day due to either an inschool suspension or a teacher suspension from a classroom, or a combination of both.

- If Attendance has at least one period of attendance, the day cannot count for reporting.
- If the attendance is marked with State Code 110, the behavior resolution is used (ISS = 110).
- For calendar days marked as Instructional and Attendance, attendance periods marked as ISS are divided by the student's scheduled total attendance periods multiplied by the total number of Instructional and Attendance taking days in which the student was scheduled.

When the Hourly Attendance School Type Indicator reports Y, the value of Hours Absent Due to In-School Suspension divided by Hours Scheduled to Attend multiplied by Days Expected to Attend reports.

When the Student Absence Summary Data Collection Exemption Indicator field reports a value of $Y$, this field does not report.

This field does NOT take into account teacher-entered unknown attendance entries.

| Data Element | Description <br> Numeric, 6 digits ( $N$ - NNN.NN) | Campus Interface Location |
| :---: | :---: | :---: |
| Days Absent Excused NonSuspension | For Traditional STAS <br> Reports the total number of days in whole numbers (more than 0 days, less than 250 days) the student was absent for the entire school day with a valid excuse. This does not include an absence due to an out-of-school or inschool suspension. <br> If there is a split in attendance codes, where a student has some Excused Non-Suspension Codes and some Unexcused NonSuspension Codes on the same day and was not marked present at all in the day, use the following weighting system to report: <br> 1. Out of school suspension <br> 2. Then, Unexcused Non Suspension <br> 3. Then, Excused Non Suspension <br> - EX: Student has 1 excused absence in period 1, 2 Unexcused absences in periods two and three, and the rest OSS - report the OSS. <br> - EX: Student has half day period absences of Excused and half day period absences as Unexcused, report the day as unexcused. <br> This field does include attendance events that are assigned a State Code of SSE: Saturday School Excused. <br> When the Hourly Attendance School Type Indicator reports Y, the value of Hours Absent Excused (Non- | Calculated value, data not stored |

Scheduled to Attend multiplied by Days Expected to Attend reports.
When the Student Absence
Summary Data Collection
Exemption Indicator field reports a value of $Y$, this field does not report.

## When the Unknown as Excused

 checkbox is marked on the report editor, unknown teacher attendance records are included in the calculation of this field. If the checkbox is not marked, this calculation does NOT include unknown teacher attendance records.
## For Period-based STAS

Reports the total number of days (more than 0 days, less than 250 days) the student was absent for the entire school day with a valid excuse. This does not include an absence due to an out-of-school or in-school suspension.

If there is a split in attendance codes, where a student has some Excused Non-Suspension Codes and some Unexcused NonSuspension Codes on the same day and was not marked present at all in the day, use the following weighting system to report:

1. Out of school suspension
2. Then, Unexcused Non Suspension
3. Then, Excused Non Suspension

- EX: Student has 1 excused absence in period 1, 2 Unexcused absences in periods two and three, and the rest OSS - report the OSS.
- EX: Student has half day period absences of

## Data Element

schosldipitokithout a valid excuse. This does not include students who are absent due to an out-of-school suspension or who attended in-school suspension.

1. Out of school suspension
2. Then, Unexcused Non Suspension
3. Then, Excused Non Suspension

- EX: Student has 1 excused absence in period 1, 2 Unexcused absences in periods two and three, and the rest OSS - report the OSS.
- EX: Student has half day period absences of Excused and half day period absences as Unexcused, report the day as unexcused.

This field does include attendance events that are assigned a State Code of SSU: Saturday School Unexcused.

When the Hourly Attendance School Type Indicator reports Y, the value of Hours Absent Unexcused (NonSuspension) divided by Hours Scheduled to Attend multiplied by Days Expected to Attend reports.

When the Student Absence
Summary Data Collection
Exemption Indicator field reports a value of $Y$, this field does not report.

## When the Unknown as

Unexcused checkbox is marked on the report editor, unknown teacher attendance records are included in the calculation of this field. If the checkbox is not

## Data Element

$\qquad$ Description
teacher attendance records.

## For Period-based STAS

Reports the total number of days (more than 0 days, less than 250 days) the student was absent for the entire school day without a valid excuse. This does not include students who are absent due to an out-of-school suspension or who attended inschool suspension.

1. Out of school suspension
2. Then, Unexcused Non Suspension
3. Then, Excused Non Suspension

- EX: Student has 1 excused absence in period 1, 2 Unexcused absences in periods two and three, and the rest OSS - report the OSS.
- EX: Student has half day period absences of Excused and half day period absences as Unexcused, report the day as unexcused.

For calendar days marked as Instructional and Attendance, attendance periods marked as unexcused are divided by the student's scheduled total attendance periods multiplied by the total number of Instructional and Attendance taking days in which the student was scheduled.

This field does include attendance events that are assigned a State Code of SSU: Saturday School Unexcused.

When the Hourly Attendance School Type Indicator reports Y,

| Data Element | Des yaliptiof Hours Absent Unexcused (Non- | Campus Interface Location |
