Monthly Attendance Summary Report

This tool will generate CA School Month Attendance Summary report in PDF or CSV or DOCX formats. Please note that although all Attendance Funding Categories are available for selection, the attendance calculation logic in this report is correct only for categories that use the basic "one period of presence equals one day of ADA" logic. Please use the other CA-specific attendance reports for other categories such as Continuation.

Definitions

Beginning Enrollments: total students enrolled on the first instructional day of the School Month (includes students with enrollment starts from the day after the last instructional day of the previous month through the first instructional day of the SM).

Gains: total enrollments that begin after the first instructional day of the School Month.

Losses: total enrollments that end during the School Month. Enrollments with an end date on the last instructional day of a School Month are counted as losses in the next School Month.

Ending Enrollments: total students enrolled on the last instructional day of the School Month.

Total Enrollments: total number of enrollments that were active for at least one instructional day during the School Month.

Gap Gains: total number of enrollment starts that occur in the gap between two School Months.

Gap Losses: total number of enrollment drops that occur in the gap between two School Months.

When multiple calendars are selected, users will be able to generate Summary totals by Attendance Funding Category, District of Apportionment, and School Month or Reporting Period for all selected calendars. Calendars selected for this reporting should have the same School Months (including the School Month Name) and number of Instructional Days. All grade levels must have a State Grade Level selected.

Monthly Attendance Summary Report

A unique District of Apportionment appears within each unique Attendance Category for each School Month for the selected calendar(s). When multiple calendars are selected, this report generates totals by Attendance Funding Category, District of Apportionment and School Month/Reporting Period for all selected calendars.

Please note the following:

- **Calendars selected for this report should have the same school months (including school month name) and number of Instructional days.**
- All grade levels must be mapped to a State Grade level.
- Students marked as **No Show** on enrollment records are not included in the report.
- Students marked as State Exclude on their **Enrollment** record, enrolled in a **Grade Level** marked State Exclude or enrolled in a **Calendar** marked State Exclude are not reported.

The Monthly Attendance Summary can be generated immediately or can be generated at a later time using the **Submit to Batch** option. This button sends the report to Batch Queue where the report will build and be saved for review later. This option is recommended if multiple schools or even multiple attendance categories are selected.

See the [Batch Queue](#) documentation for additional information.

Report Logic

[Attendance Reporting](#) | [Enrollments](#) | [Age Requirements](#) | [Other Reporting Logic](#) | [Monthly Attendance Summary Definitions](#)

Attendance Reporting

A student is counted as Present for the entire day when the student is present in at least one attendance-taking course section in an instructional period. This means there is no attendance code assigned in the period, or there is an attendance code with a Status/Excuse of Absent/Exempt or an attendance code with a Status of Present or Tardy and any Excuse. Present by Independent Study means an attendance code of ISC with a Status of Present and any Excuse.

A student is counted as Absent for the entire day when the student is absent in all attendance-taking sections in instructional periods. This means an unexcused absence is assigned with a Status of Absent and an Excuse of Unexcused or Unknown or an excused absence is assigned with a Status/Excuse of Absent/Excused.

Enrollments

Only enrollments that are active during the selected school months for at least one instructional day are considered in the report.

All students enrolled at any time during the selected School Month(s) report under the following conditions:

- Only students whose enrollments have the Attendance Funding Category(ies) selected in the editor report.

- Students in all State Grade Levels (not just KN-12) in the selected calendar report when All Grade Levels is chosen. Otherwise, only students in selected grade levels report. All Grade Names in a calendar must have a State Grade Level entered or students in that Grade Level do not report.
- Only students whose enrollments have the appropriate Service Type/Track Jumper status enrolled in the selected calendar at any time during the selected School Month(s) report.
 - Primary Enrollments (not Track Jumpers) - Students who have Service Type P and Track Jumper checkbox is not marked.
 - Track Jumpers - Students who have Service Type P and Track Jumper checkbox is marked.
 - Partial Enrollments - Students who have Service Type S or N.

When the same student ends enrollment and re-enrolls within the same School Month, that student reports in both the Gains and Losses as two separate records.

Within a School Month, student records are grouped by Attendance Funding Category. Within an Attendance Funding Category, student records are grouped by District of Apportionment. Within a District of Apportionment section, student records are grouped by Grade Level.

The Summary reports the total for each column after each reporting group. These fields are reported for each grade level within each unique District of Apportionment within each unique Attendance Category within each unique School Month for the calendar(s) being reported. When the Attendance Category is *10: Regular Day* or *45: Independent Study Regular Day*, a summary total also reports for Grades 1-3, 4-6, 7-8, 9-12 (grouped by State Grade level). A summary total reports for the whole State Grade Level and for each individual Grade Name in the grade level if the reporting group contains State Grade Level KN. Other grade levels report but not within summary totals. For other Attendance Categories, totals for all grade levels are combined. Each unique School Month, Attendance Funding Category, and District of Apportionment "reporting group" reports in a separate section. Counts for each section report by State Grade Level.

- Students who have multiple enrollments in a School Month in the same Attendance Funding Category, District Apportionment and Grade Level group count once for each enrollment.
- Students who change Grade Levels only during a school month count in both grade levels.
- Students who change Attendance Funding Categories and/or District of Apportionment during a school month count in both groups.
- Students who change Service Types during a school month count in both groups and in both reports.
- Students who have an end status of 440 are not reported, unless the student's Attendance Funding Category is changed.

When multiple School Months are selected for reporting, each School Month reports individually and the range of School Months reports as if it were a single month. For example, when School Months 1-3 are selected, records would report for SM 1, SM 2, SM3, and SM1-3. For a single School Month, each grade level in the reporting group reports elements 6-23. For a range of School Months, each grade level in the reporting group should report elements 6-23. After each reporting group, Gap Gains and Gap Losses, which are Fields 24-25, report for the first through the second to last individual School Months. For example, if School Months 1-3 are selected, Gap Gains and Gap Losses report after SM 1 and SM 2 but not after SM 3 or SM 1-3.

Age Requirements

Students do not report until they are 5 years old.

- When a student turns 5 on or before December 2 and the student has an active Transitional Kindergarten (TK) flag, they report average daily attendance from the beginning of their enrollment of the Active School year. The TK Flag start date or Eligibility Start Date must also start before December 2 of the active school year.
- When a student turns 5 during the school month selected in the extract editor and it is after December 2, and the student has an active TK flag, the average daily attendance reports only for the days on or after the student's birthday. The TK Flag start date or Eligibility Start Date must also start before December 2 of the active school year. If the student's birthday is after December 2, the student does not report as a gain or a gap gain.
- When the student turns 5 within the period selected in the extract editor, and it is after December 2, and the student has an active TK flag, the average daily attendance reports only for the days on or after the student's birthday. The TK Flag start date or Eligibility Start Date must also start before December 2 of the active school year. If the student's birthday is after December 2, the student does not report as a gain or a gap gain.
- When a student has a TK flag AFTER December 2, the student reports from the start date of the TK flag.
- When a student has an enrollment start date AFTER December 2 and an active TK flag, the student reports from the start date of the TK flag. If the enrollment date is before the TK flag date, the student reports from whichever date is later - enrollment start date, TK Flag Date, or Birth Date. This student is counted as a gain.
- When a student is in State Grade Level PS: Pre-School, the student's ADA reports from the beginning of their enrollment in the active school year if their fifth birthday is on or before December 2 of the active school year.
- When a student is in State Grade Level PS: Pre-School, the student's ADA reports from their fifth birthday on the active year if their birthday is AFTER December 2 of the active school year. This student is counted as a gain.
- When a student has a TK Flag and is under 5 years old, the student's ADA reports from their fifth Birthday on the Active Year if their 5th Birthday is AFTER December 2 of the Active School Year. This student is counted as a gain.

Other Reporting Logic

- Gap Gains and Gap Losses report after each individual School Month when a range of School Months is selected. These report for all of the school months in the range except for the last one in each reporting group (School Month/Attendance Funding Category/District of Apportionment).
- If **Display School Details** is selected on the editor, all selected calendars are listed under **List of Included Calendars** when printed.
- Attendance calculations in this report are based on one period of presence equals one day of ADA.
- Reports a single data set for a student if that student is found in multiple trial IDs for a school year.
- Courses marked as ASES do not report. The ASES course Types that do not report are as follows:
 - A1 - Before School Base
 - A2 - After School Base
 - A3 - Before School Supplemental

- A4 - 3-hour After School Supplemental
- A5 - 6-hour After School Supplemental
- Not Funded - ASES Not Funded

Monthly Attendance Summary Definitions

The following definitions are used in the Attendance Summary Report.

Term	Definition
Beginning Enrollments	Total students enrolled on the first instructional day of the School Month. This includes students who have enrollment starts from the day after the last instructional day of the previous School Month through the first instructional day of the next School Month.
Gains	Total enrollments that begin (added) after the first instructional day of the School Month.
Losses	Total enrollments that end during (ended before the end of) the School Month. Enrollments with an end date on the last instructional day of a school month are counted in the gap losses count.
Ending Enrollments	Total students enrolled on the last instructional day of the School Month.
Total Enrollments	Total number of enrollments that were active for at least one instructional day during the School Month.
Gap Gains	Total number of enrollment starts that occur in the gap between two school months.
Gap Losses	Total number of enrollment drops that occur in the gap between two school months.

Element Selection	Description
Report Period	<p>Selection indicates the part of the year for which attendance data is reported. Options are:</p> <ul style="list-style-type: none"> • P1 • P2 • Annual • 19-20 P2 - reports School Month 01 through the last full School Month that ends on or before February 29, 2020 (added in response to COVID-19). This option can only be used with 2019-2020 calendars. • 19-20 Annual - reports all school months in a calendar that end on or before February 29, 2020 (added in response to COVID-19). This option can only be used with 2019-2020 calendars. • Choose School Months • Custom Date Range
Select School Months	<p>Allows user to select which school months to include on the report. This option displays when the Report Period option is set to Choose School Months. A calendar must be selected in the Campus toolbar in order to populate the appropriate school month list.</p>
Date Range	<p>Allows the ability to enter specific dates for the attendance data included in the report. This option displays when the Report Period option is set to Custom Date Range.</p> <p>Dates can be entered in <i>mmddyy</i> format or use the calendar icon to select a date. A calendar must be selected in the Campus toolbar in order to populate the appropriate school month list.</p>

Display School Details	<p>When selected, displays the school name for which data is reported in a List of Included Calendars header.</p>

Element Selection	Description
Ad hoc Filter	<p>Allows a pre-existing Ad hoc filter to be chosen to further narrow the results of the students included in the report.</p> <p>For example, the MAS may need to be generated for a particular race/ethnicity. Creating a filter that only pulls that information can be selected here, so the results of the MAS only return students in the selected grade level, attendance category and a particular race/ethnicity. This allows for LCAP reporting.</p>
Format	<p>Determines the file type in which the report will generate. Options are PDF, or PDF (State Reporting), DOCX, DOCX (State Reporting), or CSV.</p>
Calendar Selection	<p>Data from selected calendars will be included in the report. At least one calendar needs to be selected in order to generate. The calendar chosen in the Campus toolbar will be selected automatically.</p>

Generate the Monthly Attendance Summary Report

This is a very complex report. Try to limit the generation of this report to after-school hours or use the Submit to Batch option to select when the report can generate.

1. Select the **Report Period** from the dropdown list.
2. If the Report Period option chosen is Choose School Months, select the desired **School Months** to include in the report.
3. If the Report Period option chosen is Custom Date Range, enter the desired dates.
4. Select the desired **Attendance Category(ies)** from the list.
5. Select the **Grade Level(s)** of the students to include in the report.
6. Select the **Student Type** from the dropdown list.
7. Determine if calendar details should be displayed. If yes, mark the **Display School Details** checkbox. If no, uncheck this option.
8. Select an **Ad hoc Filter**, if desired.
9. Select the **Format** in which to display the report.
10. Select the **Calendars** to include in the report.
11. Click the **Generate Report** button. The report displays in the selected format, listing the attendance information for the selected students. Or, to generate the report at a later time, click the **Submit to Batch** button.

The example shown below uses the following options:

- Reporting Period - P1
- Attendance Category - All Categories
- Grades - High School Grade Levels
- Student Type - Primary Enrollments
- Display School Details - Selected

- Format - PDF
- One Calendar selected
