

# Early Reading Deficiency (Michigan)

Last Modified on 06/06/2024 8:20 am CDT

Tool Search: Early Reading Deficiency

The Early Reading Deficiency tool is used to indicate reading deficiencies in the student. Districts may track data for students with reading deficiencies using this tool.

Early Reading Deficiency record dates may NOT overlap one another.

*Michigan Early Reading Deficiency Detail Editor*

## Start Date

This field indicates the date on which a reading deficiency was identified for the student.

[▶ Click here to expand...](#)

## End Date

End date indicates the date on which the student no longer displays reading deficiencies.

[▶ Click here to expand...](#)

## Reading Deficiency Identified

Use the drop-list to indicated if a reading deficiency was identified, any time during the current school year, for the student.

[▶ Click here to expand...](#)

## Reading Deficiency Continuation

This drop-list is used to indicate if the student's identified reading deficiency still exists at the end of the current school year.
