Daily Health Log Scanning

Last Modified on 09/16/2022 12:02 pm CDT

The Scanning toolset is part of the Campus Workflow Suite.

Tool Search: Daily Health Log Scanning

The Daily Health Log Scanning tool is used to scan in students for daily health tracking purposes in conjunction with the Daily Health Log tool. Enter a student number or scan in an ID and click **Enter.**

Once a student scans in, the Daily Health Log displays.

Add a Daily Health Log Record

See the Daily Health Log documentation for information on how to enter Daily Health Log records.
