Tool Search: Register

This report is required by the New Jersey Administrative Code (N.J.A.C.) 6A:32-8, and documents each school district's continuous cycle of enrolling students, recording daily attendance, reporting dropouts, and submitting year-end attendance to the DOE.

Report Logic

The Register Report collects student enrollment and attendance data by grade or self-contained special education programs and six NCLB subgroups:

- Race
- Gender
- Low Income
- Migrant Status
- LEP
- IEP

A student is reported if the following are true:

- The student has an enrollment record within the same calendar as the calendar selected on the report editor.
- The enrollment service type is PRIMARY.
- The student's State Reporting Enrollment Editor is populated with data.
- The student has attendance information between the enrollment start and end dates for that calendar, or the enrollment end date is null.
- Student attendance information is not recorded during non-instructional periods.

- The School Month is selected, and the attendance date is between that school month's start and end date.
- ▶ Click here to expand...

Attendance Calculation

The calculation of attendance days considers both whole-day/half-day attendance and includes summaries for all Program Types in which a student was enrolled.

For Non-Shared Time Students

- For all attendance information records where possible Day = 1, if the daily absent minutes are greater than 240, the record will be counted as "1" whole-day absent.
- If the daily absent minutes are between 239 and 60, the record will count as ".5." half-day absent.
- If the daily absent minutes are less than 60, the record will count as "0" day absent (present).

For Shared Time Students

- For all attendance information records where possible Day = 1, if the daily absent minutes are greater than 60, the record will count as ".5." half-day absent.
- If daily absent minutes are less than "60," count as "0" days absent (present).

Attendance Code Mapping

Refer to the following tables for Attendance Code Mapping for Possible Days Absent and Minutes Absent.

Possible Days Absent

Attendance Code	Enrollment Shared Time = Y	Enrollment Shared Time = N
0	Ignored	Ignored
1	0.5	1
2	0.5	1
3	0	0
4	0	0
5	0.5	1
6	0.5	1
7	0.5	1

Minutes Absent

Attendance Code	Enrollment Shared Time = Y	Enrollment Shared Time = N
0	Ignored	Ignored
1	Total minutes scheduled for period (end time - start time) / 2	Total minutes scheduled for period (end time - start time)
2	Total minutes scheduled for period (end time - start time) / 2	Total minutes scheduled for period (end time - start time)
3	Total attendance minutes for period ((end time - start time) - minutes present) / 2	Total attendance minutes for period ((end time - start time) - minutes present)
4	Total attendance minutes for period ((end time - start time) - minutes present) / 2	Total attendance minutes for period ((end time - start time) - minutes present)
5	Total minutes scheduled for period (end time - start time) / 2	Total minutes scheduled for period (end time - start time) / 2
6	Total attendance minutes for period ((end time - start time) - minutes present) / 2	Total attendance minutes for period ((end time - start time) - minutes present)
7	0	0

When the enrollment record is marked as No Show (Enrollment.noShow = Yes), Attendance Codes 1-7 are overridden, and the calculation is as follows: Total minutes scheduled for the period (end time - start time) / 2

Report Editor Details

The following information explains the Report Editor elements.

Option	Description
Which students would you like to include in the report?	 Grade Grade levels are created on the <u>Calendar</u> and are not filtered based on the school selected in the Campus toolbar. Ad Hoc Filter Filters contain a subset of students meeting the fields selected in the <u>Ad hoc Reporting Filter Designer</u>. A Snapshot Date can be entered to return only students who are actively enrolled as of the snapshot date. The Enrollment Effective Date can be different than the Snapshot Date.
Effective Date	This date reflects students' current enrollment status. If a student was actively enrolled on the entered date, he/she will be included in the report. The field defaults to the current date but can be changed to reflect the time periods for which the report is generated more accurately.
Snapshot Date	The report only returns students actively enrolled as of the snapshot date when entered. The Enrollment Effective Date can be different from the Snapshot Date.
Include Weekends	When not marked, only regular school days (Monday-Friday) are included. When marked, the report includes weekend days marked as instructional/attendance days. Any instructional weekend days are included in the count in the following fields for the selected report types: • Total Instructional Days • Days Total • Days Present • Days Absent • Expand Individual Day Attendance • Days Open • Days Possible
Use Enrollment Programs	Program participation records are reported when the checkbox is NOT selected (the default). When the checkbox is marked, program fields on the enrollment record are considered.
Exclude Cross- Site Data	Cross-site section enrollment data is <u>not</u> included in the report when checked. • <u>Cross-site enrollment</u> functionality must be enabled at the district level for the checkbox to display. • Defaults to checked.
Report Format	Indicates how the report generates: • State Format (PDF) • DOCX

Option	Description
Select Calendars	The Register Report requires the selection of at least one calendar for a school. The list of available calendars depends on the School and Year selected in the Campus toolbar.
Report Type	The Register Report can be generated for the following types of data: • Enrollment • ASSA • The Snapshot Date field must be populated when the ASSA checkbox is marked. • Attendance • NCLB • Attendance Summary All report types can be chosen simultaneously, which may slow server response time and delay the report's generation. The images in the Generating the Report section represent each report type.
School Month	School months represent a specific length of time in the school year. For New Jersey, each school month for each school calendar starts with the first instructional day of the physical month and lasts until the last instructional day of the month. If the first day of the month falls on a Saturday or Sunday, the school month start date should be the first Monday. The report can be generated for all or a selection of school months. To select specific school months, deselect the All School Months option. This removes the checkboxes from the available school months. Mark the desired school months to include on the report.
Generate Report	Generate the results immediately in the selected format.
Submit to Batch	Sends the extract to the <u>Batch Queue</u> . Batch Queue functionality enables you to schedule when the report is generated, thereby reducing the impact on system performance.

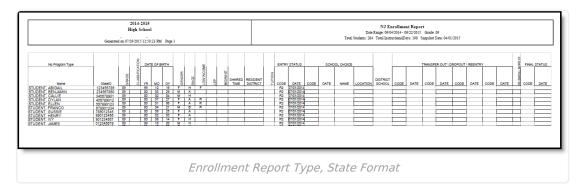

Generate the Report

- 1. Select the students in the report by choosing a **Grade** level or an **Ad hoc Filter**.
- 2. Enter an **Enrollment Effective Date** in *mmddyy* format, or use the **Calendar** icon to select a date.
- 3. Enter a **Snapshot Date** in *mmddyy* format, or use the **Calendar** icon to select a date. When entered, this date prints in the Report Header next to the Total Students reported.
- 4. If desired, mark the **Include Weekends** checkbox.
- 5. If cross-site enrollment functionality is enabled at the district level, the **Exclude Cross-Site Data** checkbox will display (defaults to checked). Deselect if you want cross-site data included in the report.to display.
- 6. Select the desired **Report Format**.
- 7. Select the **Calendar(s)** to include in the report.

- 8. Select the **Report Type(s)** to include in the report.
- 9. Select the appropriate **School Months** to include in the report.
- 10. Click the **Generate Report** or Submit to Batch buttons. The report displays in a new window in the selected format.

NCLB Report Type

This section provides total calculations of students by subgroup based on Days Possible, Days Present, and Head Count.

Calculations for all NCLB categories

• Present Day Totals

- If there is attendance data, subtract the possible day for the attendance information from the day absent from the attendance information.
- If there is no attendance none, count .5 if the student is shared time and 1 if the student is not.
- Sum up this information for all days and all students.
- See the attendance information section above for logic on possible day and day absent.

Possible Day Totals

- Counts as either 1 or .5 possible day (depending on whether the student is shared time) if there is no attendance information for that day or there is attendance information for that day and the possible day is greater than 0.
- Otherwise, it does not count as a possible day.
- Sum up this information for all days for all students.

Head Count Totals

• The number of person IDs, ignoring duplicates.
